The Tuned in Musician Sean-David McGoran,2013-07-31 Why Another Book on Meditation for Musicians Because the last thing that musicians need is to thirst for something only to come up dry There have been many excellent books written for musicians that deal fairly extensively with the issues challenges and concerns of what has been called the inner musician Specifically texts such as *The Inner Game of Music* *The Mastery of Music* and *Effortless Mastery* just to name a few These books are written by some of the world s finest musicians and offer some excellent advice to the musician This book however seeks to dig deeper or perhaps further back would be a better description This book seeks to take the musician and really anyone who wants to better be in tune with the Creator in their creative work back to creation and to the Creator seeking to answer the question How can we be better tuned into the Creator and the commission of creating as well as the community which we seek to make music for Tuned In is based on a historical meditation model and is really aimed at both encouraging musicians and derailing fears as well as re thinking the ethical spiritual and moral implications of what it means to be a musician Tuned In is written by a musician and primarily meant to challenge and encourage musicians in the discipline of meditation especially in practicing writing and playing music but this book is really for any artist especially those involved in the communicative arts Are you a communicative artist do you communicate through your voice instrument writing painting or sculpting Perhaps even through the culinary arts Tuned In is a book for you
