**Selective Security in the War on Drugs** Alke Jenss, 2023-01-09 Paramilitaries crime and tens of thousands of disappeared persons the so called war on drugs has perpetuated violence in Latin America at times precisely in regions of economic growth Legal and illegal economy are difficult to distinguish A failure of state institutions to provide security for its citizens does not sufficiently explain this Selective Security in the War on Drugs analyzes authoritarian neoliberalism in the war on drugs in Colombia and Mexico It interprets the security projects of the 2000s when the security provided by the state became ever more selective as embedded in processes of land appropriation transformed property relations and global capital accumulation By zooming in on security practices in Colombia and Mexico in that decade and juxtaposing the two contexts this book offers a detailed analysis of the role of the state in violence To what extent and for whom do states produce order and disorder Which social forces support and drive such state practices Expanding the literature on authoritarian neoliberalism and the colonality of state power thus linking political economy to postcolonial approaches the book builds a theoretical lens to study state security practices Different social groups enjoying differentiated access to the state influenced the state discourse on crime to very different extents Security practices which oscillated between dispersed organization by a multiplicity of actors and institutionalization with the military materialized as horrific insecurity for social groups thought of as disposable In tendency putting security centerstage disabled dissent The security projects exacerbated contradictions driven by a particular economic model and simultaneously criminalized precisely those that this model had already radically disadvantaged      *En tu medio* Leah Fonder-Solano, Casilde A. **Latin America's Contested Pasts in Telenovelas and TV Series** Mónica Contreras Saiz, Stefan Rinke, 2024-12-30 In Latin America the production of telenovelas and TV series about the region's recent and traumatic past has grown considerably in the last 20 years affecting societal perceptions of the past historical consciousness and political culture While these TV products are usually perceived as trivial they do provide a historical framework to a wide audience which finds it easier to relate to the national past through fiction than through history books journalistic articles or documentaries Latin America's Contested Pasts in Telenovelas and TV Series analyzes the historical culture of Latin American society embodied in telenovelas and TV series from the 1960s to this day It compiles regional case studies on the televised representation of 20th century dictatorships in Chile Argentina and Brazil as well as the war against drug trafficking and the armed conflict in Colombia Highlighting the political and social relevance of fictional television the contributions offer interdisciplinary insights into its discourses and narratives from the heroization of criminals to the search for reconciliation and the construction of a historical memory

Cómo me infiltré y engañé al Cartel Jorge Enrique Velásquez,1993      **Narrating Narcos** Gabriela Polit Dueñas,2013-10-18

Narrating Narcos presents a probing examination of the prominent role of narcotics trafficking in contemporary Latin American cultural production In her study Gabriela Polit Due as juxtaposes two infamous narco regions Culiacan Mexico and Medellin Colombia to demonstrate the powerful forces of violence corruption and avarice and their influence over locally based cultural texts Polit Due as provides a theoretical basis for her methods citing the work of Walter Benjamin Pierre Bourdieu and other cultural analysts She supplements this with extensive ethnographic fieldwork interviewing artists and writers their confidants relatives and others and documents their responses to the portrayal of narco culture Polit Due as offers close readings of the characters language and milieu of popular works of literature and the visual arts and relates their ethical and thematic undercurrents to real life experiences In both regions there are few individuals who have not been personally affected by the narcotics trade Each region has witnessed corrupt state police and paramilitary actors in league with drug capos Both have a legacy of murder Polit Due as documents how narco culture developed at different times historically in the two regions In Mexico drugs have been cultivated and trafficked for over a century while in Colombia the cocaine trade is a relatively recent development In Culiacan characters in narco narratives are often modeled after the serrano highlander a romanticized historic figure and sometime thief who nobly defied a corrupt state and its laws In Medellin the oft portrayed sicario assassin is a recent creation an individual recruited by drug lords from poverty stricken shantytowns who would have little economic opportunity otherwise As Polit Due as shows each character occupies a different place in the psyche of the local populace Narrating Narcos offers a unique melding of archival and ground level research combined with textual analysis Here the relationship of writer subject and audience becomes clearly evident and our understanding of the cultural bonds of Latin American drug trafficking is greatly enhanced As such this book will be an important resource for students and scholars of Latin American literature history culture and contemporary issues
