Materials Research Using Cold Neutrons At Pulsed Neutron Sources Chun Keung Loong, Pappannan Thiagarajan, Frouw, Beverly A Marzec, 1999-04-29 The applications of the use of cold neutrons for condensed matter research at accelerator based spallation sources are less well known than that of the use of cold neutrons at reactor sources This book represents the outcome of the first international workshop on Materials Research Using Cold Neutrons at Pulsed Sources It consists of overviews of the present status and future trends in research opportunities using cold neutrons as well as topical papers focusing on the areas of small angle neutron scattering reflectivity and spectroscopic studies of a rich variety of materials from adsorbed molecules to thin films to coal to metallic glasses These papers will benefit researchers who are interested in the characterization of microscopic properties of advanced materials
