*Midwiving Subjects in Shakespeare's England* Caroline Bicks,2017-07-05 At the intersections of early modern literature and history Shakespeare and Women s Studies

Midwiving Subjects explores how Shakespearean drama and contemporary medical religious and popular texts figured the midwife as a central producer of the body s cultural markers In addition to attending most Englishwomen s births and testifying to their in extremis confessions about paternity the midwife allegedly controlled the size of one s tongue and genitals at birth and was obligated to perform virginity exams impotence tests and emergency baptisms The signs of purity and masculinity paternity and salvation were inherently open to interpretation yet early modern culture authorized midwives to generate and announce them Midwiving Subjects then challenges recent studies that read the midwife as a woman whose power was limited to a marginal and unruly birthroom community and instead uncovers the midwife s foundational role not only in the rituals of reproduction but in the process of cultural production itself As a result of recent changes in managed healthcare and of increased attention to uncovering histories of women s experiences midwives past and present are currently a subject of great interest This book will appeal to readers interested in Shakespeare as well as the history of women and medicine

Bringing together leading international scholars in literary historical fields to produce scholarship informed by the perspective of contemporary politics, the volume examines the ways in which the family defines itself in transformative moments of potential crisis, birth and death, maturation, marriage moments when the family is negotiating its position within and through broader cultural frameworks and when as a result family politics become most apparent.

*Mistress* Anthony Fletcher, Ruth M. Larsen, 2025-08-05. An insightful, hugely engaging new history of elite women and the country house from the sixteenth to the twentieth century. Grand houses can be found across the countryside of England and Wales. From the Stuart and Georgian periods to the Edwardian and Victorian, these buildings were once home to the aristocratic families of the nation. But what was life like for the mistresses of these great houses? How much power and influence did they really have? Anthony Fletcher and Ruth M. Larsen explore the lives of country house mistresses. Focusing on eighteen women and spanning five centuries, they look at the ways in which elite women not only shaped the house, household and family but also had an impact on society, culture and politics within their estates and beyond. We meet Brilliana Harley, who defended her castle at Brampton Bryan; Frances Boscawen, who oversaw the building of Hatchlands; and Lady Mary Elcho, who preserved her secret life as mistress to Arthur Balfour. This is a fascinating account of the country house that puts women's experiences centre stage.

**A Cultural History of the Emotions in the Baroque and Enlightenment Age**, 2020-08-20. During the period of the Baroque and Enlightenment, the word 'emotion' denoting passions and feelings came into usage, albeit in an irregular fashion. Emotion ultimately emerged as a term in its own right and evolved in English from meaning physical agitation to describe mental feeling. However, the older terminology of passions and affections continued as the dominant discourse, structuring thinking about feeling and its wider religious, political, social, economic and moral imperatives. The emotional cultures described in these essays enable some comparative discussion about the history of emotions and particularly the causes and consequences of emotional change in the larger cultural contexts of the Baroque and Enlightenment. Emotions research has enabled a rethinking of dominant narratives of the period of histories of revolution, state building, the rise of the public sphere, religious and scientific transformation and more. As a new and dynamic field, the essays here are just the beginning of a much bigger history of emotions.
