Procedure boxes highlight step by step instructions for common clinical nursing tasks. Communication Cues offer tips for obtaining information from women, children, and parents including probing questions and other practical examples. Nursing Care Plans guide the student through assessment, nursing diagnoses, expected outcomes, nursing interventions, rationales, and evaluation for specific maternity and pediatric conditions. Drug Guides provide a quick reference for common medications. Clinical Pathways summarize maternity care guidelines and illustrate the use of pathways as a means of organizing care. A Clinical Reference section opens pediatric Alterations chapters providing an overview of anatomy and physiology, pediatric differences, and common lab and diagnostic tests. Pathophysiology boxes in the pediatric unit describe how diseases develop. Photo Stories in the pediatric unit offer a visual how to guide to featured nursing functions. Companion CD ROM reinforces learning with NCLEX examination style review questions, an audio glossary, and outlines of nursing skills. Pediatric Health Promotion boxes outline APA recommended well child visits, milestones for growth and development, health screening and immunizations, and anticipatory guidance.
