Math for All (K-2) Babette Moeller, Barbara Dubitsky, Marvin Cohen, Karen Marschke-Tobier, Hal Melnick, Linda Metnitsky, Andrea Brothman, Randi Cecchine, 2013-01-29 Demonstrate a collaborative inclusive approach for teaching mathematics in Grades K-2 This complete resource guides you in leading the highly acclaimed Math for All program for K-2 teachers Staff developers will find a user friendly facilitator's guide and DVD including presentations and video case studies for conducting a series of five workshops With the Math for All Participant's Book this resource helps you Show general and special education teachers how to collaborate to meet the needs of all students including those with disabilities and support the CCSS Demonstrate how to identify students' different strengths and challenges Build familiarity with the key neurodevelopmental functions that shape children's learning Suggested use Order one comprehensive package for the facilitator plus as many individual Math for All Participant's Books as needed for each individual in your group Includes Participant book Facilitator's Guide 2 DVDs *Math for All Participant Book (K-2)* Babette Moeller, Barbara Dubitsky, Marvin Cohen, Karen Marschke-Tobier, Hal Melnick, Linda Metnitsky, 2013-01-09 A mathematics professional development program for inclusive classrooms Developed by the Education Development Center and Bank Street College of Education this professional development program shows general and special education teachers how to collaborate to provide a high quality standards based mathematics education to all students including those with disabilities The Math for All learning experiences detailed in the corresponding facilitator's kit help teachers Assess students' strengths and needs Use multiple instructional strategies to teach specific math concepts Tailor lessons based on individual student's strengths and needs to help them achieve high quality learning outcomes in mathematics and meet the Common Core State Standards This program emphasizes how the neurodevelopmental demands of a math lesson interact with individual student's strengths and needs The authors provide step by step guidance for adapting materials activities and instructional strategies to make lessons accessible to all students This participant book includes the handouts and reproducibles for the program The corresponding kit includes a facilitator's guide and a corresponding DVD This detailed and informative resource provides a neurodevelopmental guideline for planning math lessons appropriate for learners with a variety of learning needs Renee Peoples Math Instructional Facilitator Swain County Elementary Schools Bryson City NC Math for All will directly impact the way teachers observe reflect and support students who struggle with some aspect of math learning It is a multi layered book that will appeal to facilitators of professional development and teachers because it is grounded in everyday practice Claire Wurtzel Director of Professional Development The Churchill School Center New York NY **Productive Math Struggle** John J. SanGiovanni, Susie Katt, Kevin J. Dykema, 2020-03-09 Seldom has a book been as timely or as necessary as Productive Math Struggle is today One of the remarkable accomplishments of SanGiovanni Katt and Dykema's work lies in how they seamlessly connect the research on high quality tasks high expectations identity and equity to productive math struggle This

is perhaps their greatest contribution The authors see productive math struggle as a critical feature of mathematics classrooms that support access equity and empowerment specifically arguing that every student is worthy of struggle From the Foreword by Matt Larson Ph D Past President 2016 2018 National Council of Teachers of Mathematics Associate Superintendent for Instruction Lincoln Public Schools Nebraska Struggle is hard Productive struggle is power All students face struggle and they should it is how they learn and grow The teacher s job is not to remove struggle but rather to value and harness it helping students develop good habits of productive struggle But what s missing for many educators is an action plan for how to achieve this especially when it comes to math Persevering through difficult challenges to reach new learning is the core of Productive Math Struggle When left unsupported struggle can become unproductive and demoralizing negatively influencing students mathematical identities The authors guide teachers through six specific actions including valuing fostering building planning supporting and reflecting on struggle to create a game plan for overcoming obstacles by sharing Actionable steps activities and tools for implementation Instructional tasks and vignettes representative of each grade level Real world examples showcasing classroom photos and student work samples A book study guide is available under the Free Resources tab that helps math educators to learn together on how to incorporate productive math struggle in their classrooms Revolving around the idea that math is a way of thinking and understanding and not just the pursuit of answers and procedures this book empowers students to embrace productive struggle to build essential skills for learning and living both inside and outside the classroom

Resources in Education ,1988-12 Middle School Math, Course 2 McDougal Littell Incorporated,2004 Second Handbook of Research on Mathematics Teaching and Learning Frank K. Lester,2007-02-01 The audience remains much the same as for the 1992 Handbook namely mathematics education researchers and other scholars conducting work in mathematics education This group includes college and university faculty graduate students investigators in research and development centers and staff members at federal state and local agencies that conduct and use research within the discipline of mathematics The intent of the authors of this volume is to provide useful perspectives as well as pertinent information for conducting investigations that are informed by previous work The Handbook should also be a useful textbook for graduate research seminars In addition to the audience mentioned above the present Handbook contains chapters that should be relevant to four other groups teacher educators curriculum developers state and national policy makers and test developers and others involved with assessment Taken as a whole the chapters reflects the mathematics education research community s willingness to accept the challenge of helping the public understand what mathematics education research is all about and what the relevance of their research findings might be for those outside their immediate community A Guide to Detracking Math Courses Angela Torres, Ho Nguyen, Elizabeth Hull Barnes, Laura Wentworth, 2023-05-03 Create a pathway to equity by detracking mathematics The tracked mathematics system has been operating in US schools for decades However research demonstrates negative effects on subgroups of students by keeping them in a single math track thereby denying them access to rigorous coursework needed for college and career readiness The journey to change this involves confronting some long standing beliefs and structures in education When supported with the right structures instructional shifts coalition building and educator training and support the detracking of mathematics courses can be a primary pathway to equity The ultimate goal is to increase more students access to and achievement in higher levels of mathematics learning especially for students who are historically marginalized Based on the stories and lessons learned from the San Francisco Unified School District educators who have talked the talk and walked the walk this book provides a model for all those involved in taking on detracking efforts from policymakers and school administrators to math coaches and teachers By sharing stories of real world examples lessons learned and prompts to provoke discussion about your own context the book walks you through

Designing and gaining support for a policy of detracked math courses Implementing the policy through practical shifts in scheduling curriculum professional development and coaching Supporting and improving the policy through continuous research monitoring and maintenance This book offers the big ideas that help you in your own unique journey to advance equity in your school or district s mathematics education and also provides practical information to help students in a detracked system thrive
