Bubble in the Sun Christopher Knowlton, 2020-01-14 Christopher Knowlton author of Cattle Kingdom and former Fortune writer takes an in depth look at the spectacular Florida land boom of the 1920s and shows how it led directly to the Great Depression The 1920s in Florida was a time of incredible excess immense wealth and precipitous collapse The decade there produced the largest human migration in American history far exceeding the settlement of the West as millions flocked to the grand hotels and the new cities that rose rapidly from the teeming wetlands The boom spawned a new subdivision civilization and the most egregious large scale assault on the environment in the name of progress Nowhere was the glitz and froth of the Roaring Twenties more excessive than in Florida Here was Vegas before there was a Vegas gambling was condoned and so was drinking since prohibition was not enforced Tycoons crooks and celebrities arrived en masse to promote or exploit this new and dazzling American frontier in the sunshine Yet the import and deep impact of these historical events have never been explored thoroughly until now In Bubble in the Sun Christopher Knowlton examines the grand artistic and entrepreneurial visions behind Coral Gables Boca Raton Miami Beach and other storied sites as well as the darker side of the frenzy For while giant fortunes were being made and lost and the nightlife raged more raucously than anywhere else the pure beauty of the Everglades suffered wanton ruination and the workers mostly black who built and maintained the boom endured grievous abuses Knowlton breathes dynamic life into the forces that made and wrecked Florida during the decade the real estate moguls Carl Fisher George Merrick and Addison Mizner and the once in a century hurricane whose aftermath triggered the stock market crash This essential account is a revelatory and riveting history of an era that still affects our country today
