The Papacy in the Modern World Frank J. Coppa, 2014-06-15 In March 2013 millions of people sat glued to news channels and live Internet feeds waiting to see white smoke rise from the Sistine Chapel signaling the election of the new pope For two millennia the papacy leader of the Roman Catholic Church has played a fundamentally important role in European history and world affairs Transcending the religious realm it has influenced ideological philosophical social and political developments as well as international relations Considering the broad role of the papacy from the end of the eighteenth century to the present this original history explores the reactions and responses it has evoked and its confrontation with and accommodation of the modern world Frank J Coppa describes the triumphs controversies and failures of the popes over the past two hundred years including Pius IX who was criticized for his campaign against Italian unification and his proclamation of papal infallibility Pius XII denounced for his silence during the Holocaust and impartiality during World War II and John XXIII who was praised for his call to update the Church and for convoking the Second Vatican Council Examining a wide variety of sources some only recently made available by the Vatican archives *The Papacy in the Modern World* sheds new light on this institution and offers valuable insights into events previously shrouded in mystery

Faith and Leadership Michael P. Riccards, 2012-04-19 This study is a comprehensive history of the papacy the oldest elective office in the world and how it has managed over the centuries the most complex voluntary association of faith The book argues that in fact through most of its existence the papacy has adapted managerial models of the secular world and applied them to the Catholic Church Since its emergence from the Jewish synagogues to a persecuted minority in the Roman Empire to becoming the established religion of the West the Church and the papacy engaged the world on its own terms It is only after the Council of Trent did the Church become somewhat more divorced and estranged from the environment around it This book focused on those changes and on the great popes across the centuries who reformed and altered Catholicism Special attention is directed to Gregory I Innocent I Innocent III Pius IX Leo XIII Pius XI Pius XII John XXVII Paul VI and John Paul II The conclusion is that the persistence of the Catholic Church for so many centuries was due to its ability to preserve the faith but re establish its forms and managerial class

The Early Papacy Adrian Fortescue, Alcuin Reid, 2008-01-01 Adrian Fortescue a British apologist for the Catholic faith in the early part of the 20th century wrote this classic of clear exposition on the faith of the early Church in the papacy based upon the writings of the Church fathers until 451 No ultramontanist Fortescue can be a keen critic of personal failings of various Popes but he shows through his brilliant assessment of the writings of the Church fathers that the early

Church had a clear understanding of the primacy of Peter and a belief in the divinely given authority of the Pope in matters of faith and morals Referring to the famous passage in Matthew 16 18 where Jesus confers his authority upon Peter as the head of the Apostles and the first Pope Fortescue says that while Christians can continue to argue about the exact meaning of that passage from Scripture and the various standards that are used for judgments about correct Christian teaching and belief the only possible real standard is a living authority an authority alive in the world at this moment that can answer your difficulties reject a false theory as it arises and say who is right in disputed interpretations of ancient documents Fortescue shows that the papacy actually seems to be one of the clearest and easiest dogmas to prove from the early Church And it is his hope through this work that it will contribute to a renaissance with regard to the office of the papacy among those in communion with the Bishop of Rome and that it will assist those outside this communion to seek it out confident that it is willed by Christ for all who would be joined to him in this life and in the next
