**Encyclopedia of the Vatican and Papacy** Frank J. Coppa, 1999-04-30 Entries on heresies and condemnations are included along with those on the Vatican reaction to various ideological movements such as Arianism Jansenism Gnosticism Fascism Racism Marxism and Americanism Entries address current issues such as the Papal position on social questions abortion homosexuality liberation theology and birth control *Encyclopedia of the Papacy* Hans Kühner, 1958 Biographical sketches of every pope from St Peter to Pius 12th with particular attention to the political and historical background

**Dictionary of Popes and the Papacy** Bruno Steimer, 2001 This first installment of the Encyclopedia of Theology and Church is the best one volume reference work on the popes and the papacy Part one covers every pope and antipope part two discusses the institution of the Vatican and the papacy **The Pope Encyclopedia** Matthew Bunson, 1995 Containing more

than 2 000 entries in handy alphabetical format this provocative illustrated book explores the whole lively and entertaining history of the Vatican and its rulers **The Pope Encyclopedia** Matthew Bunson, 1999-06-01 [The Papacy: Gaius-Proxies](#)

Philippe Levillain, 2002-01-01 **The Great Popes Through History** Frank J. Coppa, 2002-11-30 Concentrating on the most important popes this work provides an overview of one of the oldest and most influential institutions in the world Notable popes are analyzed in comprehensive entries divided into five historical sections Early Medieval Renaissance and Reformation Early Modern Modern Section introductions place the popes in historical perspective and include general bibliographic references for the entire age Individual essays provide specific bibliographic references Unlike multivolume references that cover all of the popes this source focuses exclusively on popes who played crucial roles not only in the institution of the papacy itself but also in European and world events Beginning with Peter and ending with John Paul II the contributors to this volume offer a wealth of information They provide insight into the institution of the papacy and its outstanding members Combining fact explanation and analysis the essays provide readers with a detailed understanding of the ways in which the papacy and these individuals have influenced world events throughout the centuries **The Great Popes Through History** Frank J. Coppa, 2002 Unlike other references that cover all the popes or the papacy in general with only examples from various popes the two volume encyclopedia presents longer and more detailed articles about those

deemed to have most influenced the development of the church and the course of history The arrangement is by period early from Peter through Pelagius 590 medieval from Gregory I through Boniface VIII 1303 Renaissance and Reformation from Benedict XI through Pius IV 1565 early modern from Pius V through Clement XIV 1774 and modern from Pius VI through John Paul II The two volumes are pagged and indexed together Bibliographies are entry specific Annotation copyrighted by Book News Inc Portland OR *Politics and the Papacy in the Modern World* Frank J. Coppa, 2008-06-30 The outbreak of the French Revolution and the Industrial Revolution at the turn of the nineteenth century transformed the world and ushered in the modern age whose currents challenged the traditional political order and the prevailing religious establishment The new secular framework presented a potential threat to the papal leadership of the Catholic community which was profoundly affected by the rush towards modernization In the nineteenth century the transnational church confronted a world order dominated by the national state until the emergence of globalization towards the close of the twentieth century Here Coppa focuses on Rome's response to the modern world exploring the papacy's political and diplomatic role during the past two centuries He examines the Vatican's impact upon major ideological developments over the years including capitalism nationalism socialism communism modernism racism and anti-Semitism At the same time he traces the continuity and change in the papacy's attitude towards church state relations and the relationship between religion and science Unlike many earlier studies of the papacy which examine this unique institution as a self contained unit and concentrate upon its role within the church this study examines this key religious institution within the broader framework of national and international political diplomatic social and economic events Among other things it explores such questions as the limits to be placed on national sovereignty the Vatican's critique of capitalism and communism the morality of warfare and the need for an equitable international order *The papacy. the Twentieth Century Encyclopedia of Catholicism Vol. 81*, 1959 **A Corrupt Tree:**

**An Encyclopaedia of Crimes committed by the Church of Rome against Humanity and the Human Spirit**

A.S., 2014-01-13 A Corrupt Tree is a unique extensively researched four volume expos of the dark side of the Church of Rome It reveals that for nearly two thousand years the Church's fundamental characteristic has been its self serving abuse of religio corporate power A large proportion of this first volume provides a detailed catalogue of the multitude of unholy popes Included are those who were immature capricious corrupt lascivious fanatical senile truly mad megalomaniac tyrannical murderous and wholesale killers It confirms that for many many centuries the popes were corrupt cruel inhumane and despotic In an age of savagery they were the leaders in barbarity in the subsequent age of enlightenment they have persistently resisted the march of progress Additionally the popes were wholesale killers who made the principle of assassination a law of the Christian Church Accordingly the Church has shed more innocent blood than any other institution that has ever existed among mankind Here also are presented the cupidity corruption and sexual misconducts of lesser ecclesiastics including cardinals bishops priests monks and nuns Pope Honorius III for example described his priests as

worse than beasts wallowing in their dung The Church's ruthless stranglehold on knowledge and learning is catalogued in detail Mathematics philosophy and science were repressed Selected applied theology ruled the world Everything was explained but nothing was understood The chapters on censorship reveal that even works of considerable literary or philosophical merit did not escape A large number of writings which eventually became classics of European culture were condemned and prohibited The Church also exhibited a vitriolic hatred of those who translated the Bible into the vernacular Many of these men were annihilated Holy books were burned in large numbers particularly the Jewish Talmud It is clearly demonstrated that the Church held back civilisation for over fifteen hundred years Century after century passed away and left the peasantry but little better than the cattle in the fields Finally the unholy behaviours of the numerous popes cardinals and lesser ecclesiastics are shown to establish unequivocally that the Church of Rome is neither holy nor apostolic The ultimate message of these volumes is that to become an exemplary institution and to play a truly humane role in the world's future the Catholic Church must change
