Excerpt from Masterpieces of Greek Sculpture A Series of Essays on the History of Art The increasingly rich discoveries of original works on Greek soil have lately somewhat thrown into the shade the study of the copies for which we are mainly indebted to Italy not to the advantage of our science The original sculptures from Greece are with those rare exceptions to which I have already alluded works of the second or even inferior rank The Roman copies on the other hand have preserved that pick from the masterpieces of the classical epoch which pleased ancient taste and connoisseurship in the times of highest culture It is the pick of the best and the most famous that antiquity possessed Among these copies it is that we must look for the masterpieces mentioned by the authors for the statues that made epochs or initiated movements were we to possess only copies of the noble creations of a Raphael a Michelangelo or a Rembrandt these would certainly be better worth one's study than the hosts of other originals of the time About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
