

A classic Impressionist painting of a bridge over water. The bridge, with its dark, angular structure, spans a body of water that is filled with numerous small, orange and yellow boats. The background is a soft-focus landscape with green and blue tones, suggesting a hazy sky and distant trees. The overall style is characterized by visible brushstrokes and a focus on light and color.

Van Dyck Stijn Alsteens, Adam Eaker, Xavier F. Salomon, Bert Watteeuw, 2016-01-01 The first major examination of Anthony van Dyck's work as a portraitist and an essential resource on this aspect of his illustrious career. This landmark volume is a comprehensive survey of the portrait drawings, paintings, and prints of Anthony van Dyck (1599-1641), one of the most celebrated portraitists of all time. His supremely elegant style and ability to convey a sense of a sitter's inner life made him a favored portraitist among high-ranking figures and royalty across Europe as well as among his fellow artists and art enthusiasts. Showcasing the full range of Van Dyck's fascinating international career with more than 100 works, this catalogue celebrates the artist's versatility, inventiveness, and influential approach to portraiture. Works include preparatory drawings and oil sketches that shed light on Van Dyck's working process, prints that allowed his work to reach a wider audience, and grand painted portraits. Some of the masterpieces are drawn from the exceptional holdings of The Frick Collection, while other works are presented here for the first time. Also included are drawings by some of Van Dyck's contemporaries, including his teacher Peter Paul Rubens, that illuminate the lineage of his working method. With insightful contributions by a team of international scholars, this unparalleled study of Van Dyck offers a compelling case for the distinctiveness and importance of the artist's work.
