*The Links* Robert Hunter, 2018-10-10 A masterpiece of architectural literature The Links is the first book that fully addresses the complexities of the golf course in terms of design construction and definition of the game Written in 1926 Robert Hunter conceptualized The Links as a complete study a manual for golf course architects and design enthusiasts specifically written to advance the field of study in a way that had never been tried before Although Hunter was not a golf course architect by trade or even a golfing professional his background as a dedicated socialist reformer led to his unique understanding of the relationship between golf and its greater contribution to society The challenges posed by golf as well as the beauty produced by the singular nature of the world s most famous links led Hunter to conclude that diversity is what makes golf the cherished game that it is In The Links he postulates It is not the love of something easy which has drawn men like a magnet for hundreds of years to this royal and ancient pastime on the contrary it is the maddening difficulty of it Supported by over fifty photographs and original drawings The Links details the essential features of an ideal golf course and provides insight into the strategies and methods used to design the world s most renowned courses As acclaimed architect Dr Alistair MacKenzie wrote I have read The Links with the greatest interest Mr Hunter is familiar with all the great courses in the world and he has written a most entertaining book which I am sure every golfer will read with profit I do not hesitate to say that it is the classic of the subject

**Nicklaus by Design** Jack Nicklaus, Chris Millard, 2002-11-01 Readers can experience the landscape vision of golf legend Jack Nicklaus in this collection of images from the various golf courses he has helped to design including Shoal Creek in Birmingham and Castle Pines near Denver 50 000 first printing A.W.

*Tillinghast* Philip Young, 2005 Those who love the game of golf are continually fascinated by the courses that have been designed by the great architects of what has come to be known as the Golden Age of Course Design They are especially intrigued by the man who might be the greatest of them all Albert Warren Tillinghast Tilly the Terror whose courses the last of which were designed almost seventy years ago even in our day are considered among the finest and sternest tests and are the sites of numerous national and major championships are unique works of art created by a master s genius Yet he was far more than a man who designed golf courses Tillinghast the man has been largely an unknown and misunderstood genius over the years So many golfers have stood on a tee and looked out at the hole unfolding before their eyes and been in awe of what

they see a work of art that demands and challenges them in ways no other course has before for they are playing a Tillinghast golf course Frustrating and fun its inherent beauty and difficulty mix together to create an experience that brings them back to play it over and over regardless of score His courses are what golf is all about Imagine what it would be like to be able to get inside his mind to be able to know what he was thinking and seeing and to understand why his thoughts and philosophies of design were so different and greater than his contemporaries and remain so till this day In this story of the man Philip Young has accomplished what no other writer has done or even attempted until now the first true biography of a golf course architect The numerous photographs and drawings of his golf courses and individual holes serve as mere backdrops to the story of his life From Pardon Tillinghast arriving in Providence in 1645 on down to the death of Tilly s beloved wife Lillian in 1952 some ten years after his own passing we see the boy grow into the man despite the battles against depression alcohol and his many early life failures that he waged in public and the privacy of his own thoughts A complicated man who battled numerous inner demons it was his father and his trips to St Andrews in the 1890 s where he developed a unique relationship with Old Tom Morris that led to his designing golf courses and finding his purpose in life He became a man who everyone wanted to be around and know From Thomas Edison to Rosalind Russell politicians sport figures and the most common of men he treated all alike and enjoyed their company For these and many other reasons this book will be enjoyed by all who love a good story whether they can swing a golf club or not He was a man unafraid of any challenge from building a golf course on the side of a mountain that everyone else said couldn t be done to touring America and consulting for any PGA Professional who wanted his services in the twilight of his life he was unstoppable until that morning in 1942 when his heart finally gave out His life provides lessons for many and this story a delightful read for all I hope you enjoy it Philip Young August 2005
