**Masters of War** Robert Buzzanco,1996 Depicts U S political leaders as the consistent driving force behind America's Vietnam commitment    **Vietnam and the Transformation of American Life** Robert Buzzanco,1999-11-11 The Vietnam War which dominated American life during the 1960s helped to create radicalize and alter social and political life in the US

**Quarterly Review of Military Literature** ,1998    **War Termination as a Civil-Military Bargain** Shawn T. Cochran,2016-01-26 War termination reflects a civil military bargain and affects relevant decisions made by political leaders For the leader embroiled in protracted war this risk dictates whether he or she will commit more resources to the fight or else cut the state's losses and get out    *Military Review* ,1998    **Vietnam** John Prados,2009 The first major synthesis of the war since 2001 drawing upon a host of newly declassified documents presidential tapes and overlooked foreign sources to give the most comprehensive look to date of the war that still haunts America    *Air University Library Index to Military Periodicals* ,1997    *Honorable Warrior* Lewis Sorley,1998 A man of extraordinary inner strength and patriotic devotion General Harold K Johnson was a soldier's officer loved by his men and admired by his peers for his leadership courage and moral convictions Lewis Sorley's biography provides a fitting testament to this remarkable man and his dramatic rise from obscurity to become LBJ's Army Chief of Staff during the Vietnam War A native of North Dakota Johnson survived more than three grueling years as a POW under the Japanese during World War II before serving brilliantly as a field commander in the Korean War for which he was awarded the Distinguished Service Cross for extraordinary heroism The latter experiences led to a series of high level positions that culminated in his appointment as Army chief in 1964 and a cover story in Time magazine What followed should have been the most rewarding period of Johnson's military career Instead it proved to be a nightmare as he quickly became mired in the politics and ordeal of a very misguided war Johnson fundamentally disagreed with the three men LBJ Secretary of Defense Robert McNamara and General William Westmoreland running our war in Vietnam He was sharply critical of LBJ's piecemeal policy of gradual escalation and his failure to mobilize the national will or call up the reserves He was equally despondent over Westmoreland's now infamous search and destroy tactics and reliance on body counts to measure success in Vietnam By contrast he advocated greater emphasis on cutting the North's supply lines helping the South Vietnamese provide for their own internal defenses and sustaining a truly legitimate government in the South Unheeded he nevertheless continued to work behind the scenes to correct the nation's flawed approach to the war Sorley's study adds immeasurably to our understanding of the Vietnam War It also provides an inspiring account of principled leadership at a time when the American military is seeking to recover the very kinds of moral values exemplified by Harold K Johnson As such it presents a profound morality tale for our own era    *ARVN* Robert Kendall Brigham,2006 In this first in depth history of the ARVN from 1955 to 1975 Robert Brigham takes readers into the barracks and training centers of the ARVN to plumb the hearts and souls of these forgotten soldiers Through his command of Vietnamese language

sources diaries memoirs letters oral interviews and more he explores the lives of ordinary men focusing on troop morale and motivation within the context of traditional Vietnamese society and a regime that made impossible demands upon its soldiers

**The Human Tradition in the Vietnam Era** David L. Anderson, 2000-04 The Vietnam War was an immense national tragedy that played itself out in the individual experiences of millions of Americans The conflict tested and tormented the country collectively and individually in ways few historical events have The Human Tradition in the Vietnam Era provides window into some of those personal journeys through that troubled time The poor and the powerful male and female hawk and dove civilian and military are all here This rich collection of original biographical essays provides contemporary readers with a sense of what it was like to be an American in the 1960s and early 1970s while also helping them gain an understanding of some of the broader issues of the era The diverse biographies included in this book put a human face on the tensions and travails of the Vietnam Era Students will gain a better understanding of how individuals looked at and lived through this controversial conflict in American history

Bamboo in the Wind

Arne Kislenko, 2000 This dissertation examines relations between the United States and Thailand from 1961 to 1969 During the administrations of John F Kennedy and Lyndon B Johnson the United States deepened its involvement in Southeast Asia becoming embroiled in the Laotian and Vietnamese conflicts At the time the spectre of communist expansion in the region seemed very real and believing in the so called domino theory Washington sought to contain this threat by increasing its military and economic support of states in proximity to Laos and Vietnam where a vulnerability was perceived Chief among these states was Thailand which since the late 1940s had gradually become a major American ally Thailand was the only country in Southeast Asia to have never been colonised in part due to the traditional flexibility of Thai diplomacy After World War II developments in Thailand led to the entrenchment of military government which the US reinforced to gain anticommunist support in the region This relationship intensified as the situations in Laos and Vietnam worsened and by the mid 1960s Thailand was a vital centre of American military operations in Southeast Asia Using material from archives in the US Britain and Canada including recently declassified American government documents this study traces the dynamics of American policy towards Thailand during the 1960s The factors affecting the formulation and implementation of American policy and the consequences of that policy are the principal focus of analysis However attention is also given to the nature of Thai political culture and foreign policy Although never Washington's focal point and frequently lacking coordination between various government agencies US policy towards Thailand during the Kennedy and Johnson administrations was ultimately successful Thailand was a domino that did not fall and while this owed more to the nature of Thai society itself than American actions the connection to the US was undeniably an important factor Whereas US policy in Indochina met with failure Thailand remained out of communist hands even after the withdrawal of American forces by 1975 The relationship between the US and Thailand in the 1960s while far from being ideal proved to be mutually beneficial
