Chibnall, 2013-07-11 British cinema has been around from the very birth of motion pictures from black and white to color from talkies to sound and now 3D it has been making a major contribution to world cinema Many of its actors and directors have stayed at home but others ventured abroad like Charlie Chaplin and Alfred Hitchcock Today it is still going strong the only real competition to Hollywood turning out films which appeal not only to Brits just think of Bridget Jones while busily adding to franchises like James Bond and Harry Potter So this Historical Dictionary of British Cinema has a lot of ground to cover This it does with over 300 dictionary entries informing us about significant actors producers and directors outstanding films and serials organizations and studios different films genres from comedy to horror and memorable films among other things Two appendixes provide lists of award winners Meanwhile the chronology covers over a century of history These parts provide the details countless details while the introduction offers the big story And the extensive bibliography points toward other sources of information **Major Film Directors of the American and British Cinema** Gene D. Phillips, 1999

Moreover Phillips seeks to represent the various trends in filmmaking that have evolved over the years such as American film noir which is included in the discussion of Alfred Hitchcock s films and British social realism which is included in the discussion of Bryan Forbes s films BOOK JACKET **Seeing Through Music** Peter Franklin, 2011-08-01 Seeing Through

Music levels the critical playing field between film music and serious music reflecting upon gender related ideas about music and modernism as much as about film It proposes a history of twentieth century music that would include the scores of a number of the major Hollywood movies discussed here Catalogue of the Book Library of the British Film Institute.

British Cinema and Society, 1930-1970 Jeffrey Richards, Anthony Aldgate, 1983 Arguing that feature films represent an important and largely untapped source of evidence for understanding the history of the present century the authors of this book examine ten key British films from the period 1930 to 1970 in an effort to discover how they illuminate the interests attitudes and preoccupations of the age The ten films selected are *Sanders of the River* 1935 *South Riding* 1938 *A Canterbury*

 winner Sir David Lean 1908 1991 was one of the most prominent directors of the twentieth century responsible for the
 classics The Bridge on the River Kwai 1957 Lawrence of Arabia 1962 and Doctor Zhivago 1965 British born Lean asserted
 himself in Hollywood as a major filmmaker with his epic storytelling and panoramic visions of history but he started out as a
 talented film editor and director in Great Britain As a result he brought an art house mentality to blockbuster films
 Combining elements of biography and film criticism Beyond the Epic The Life and Films of David Lean uses screenplays and
 production histories to assess Lean s body of work Author Gene D Phillips interviews actors who worked with Lean and
 directors who knew him and their comments reveal new details about the director s life and career Phillips also explores
 Lean s lesser studied films such as The Passionate Friends 1949 Hobson s Choice 1954 and Summertime 1955 The result is
 an in depth examination of the director in cultural historical and cinematic contexts Lean s approach to filmmaking was far
 different than that of many of his contemporaries He chose his films carefully and as a result directed only sixteen films in a
 period of more than forty years Those films however have become some of the landmarks of motion picture history Lean is
 best known for his epics but Phillips also focuses on Lean s successful adaptations of famous works of literature including
 retellings of plays such as Brief Encounter 1945 and novels such as Great Expectations 1946 Oliver Twist 1948 and A
 Passage to India 1984 From expansive studies of war and strife to some of literature s greatest high comedies and domestic
 dramas Lean imbued all of his films with his unique creative vision Few directors can match Lean s ability to combine
 narrative sweep and psychological detail and Phillips goes beyond Lean s epics to reveal this unifying characteristic in the
 director s body of work Beyond the Epic is a vital assessment of a great director s artistic process and his place in the film
