Why is international cooperation on taxation so difficult to achieve The problems in international taxation arise from a
sovereignty conflict between the country in which the income originates source country and the country in which the
recipient of the income resides residence country This book explores the equally valid sovereign tax claims of source and of
residence countries and highlights the incompatibility of these concurrent tax claims The resulting incoherence between
source and residence countries distorts taxation of cross border income to a point where it not only creates discriminations
but challenges the fundamental principles of international taxation in itself This is an essential dilemma of international tax
policy And yet given the profound role the power to tax plays in exercising sovereignty are governments able or even willing
to eliminate this essential dilemma **The Annalist**, 1918 **Pulp and Paper Magazine of Canada**, 1918 **The Tax
Management International Forum**, 1999 *Canadian Books in Print*, 1975 **Subject Catalog** Library of Congress,
