James L. Battersby

Paradigms Regained Pluralism And The Practice Of Criticism:

Paradigms Regained James L. Battersby, 1991-08-29 *Paradigms Regained* is James L. Battersby's effort to reclaim for literary study certain legitimate territories that have been needlessly abandoned on the theoretical battlefield. Despite assertions to the contrary by poststructuralist or new historicist critics, Battersby contends it is still possible to talk intelligently, rigorously and usefully about such issues as literary intentionality, stable references, determinate meaning and objective value judgments of literary works. What enables Battersby to make his argument is his reliance not on continental thought but on Anglo-American analytic and pragmatic philosophers including Donald Davidson, Michael Dummett, Nelson Goodman, Hilary Putnam, John Searle and Israel Scheffler. Battersby synthesizes and builds on their work in a way that is at once fresh and distinctive.

Fault Lines and Controversies in the Study of Seventeenth-century English Literature

Claude J. Summers, Ted-Larry Pebworth, 2002. Written by various experts in the field, this volume of thirteen original essays explores some of the most significant theoretical and practical fault lines and controversies in seventeenth-century English literature. The turn into the twenty-first century is an appropriate time to take stock of the state of the field and as part of that stocktaking, the need arises to assess both where literary study of the early modern period has been and where it might desirably go. Hence many of the essays in this collection look both backward and forward. They chart the changes in the field over the past half century while also looking forward to more change in the future.

Beyond Poststructuralism Wendell V. Harris, 2010-11-01

The Word According to James Joyce Cordell D. K. Yee, 1997. In his denial that language refers to anything but itself and in his undoing representation, Joyce anticipates contemporary developments in the history of critical theory. Contrary to modern criticism, Joyce does not abandon representation; the idea that language affords access to reality.

Humanism Betrayed Graham Good, 2001. In *Humanism Betrayed*, Graham Good offers a defence of liberal humanism against the illiberal trends, political and intellectual, that dominate today's university. He uses the McEwen Report episode at the University of British Columbia to illustrate the current political climate in universities, showing how due process was neglected in favour of ideological inquisition.

Unorthodox Views James L. Battersby, 2002-03-30. Much of contemporary critical theory holds that meaning is relative and subjective. This book scrutinizes the principal assumptions and beliefs about mind, language, meaning, truth and reality governing current debate and discussion, not only in literary criticism and theory but also in the broader academic culture. In doing so, the volume brings support to the growing number of scholars who are expressing renewed interest in authors, determinate meanings, formal and aesthetic issues and related concerns but who have been laboring without sufficient theoretical arguments or justifications. Moving beyond critique, the book offers rigorous defenses of alternatives to the prevailing critical orthodoxies. The first five chapters address foundational issues, arguing against or exposing the limitations

of the most common forms of linguistic idealism social constructivism and relativism These initial chapters prepare the way for subsequent discussions of more text based matters such as the authorial determination of artistic effects the bases of our emotional and evaluative responses to fiction the justifications of our decisions about intrinsic merit and artistic value and other matters crucial to our understanding of the meanings and values implicit in human expression Reason and the Nature of Texts James L. Battersby,1996 James L Battersby argues for the authorial construction of determinate textual meaning insisting that to think about anything at all we must be able to refer to it and that such references are necessarily the semantic consequences of an author s deliberate intentional acts **Truth and Consequences** Reed Way Dasenbrock,2001 Contemporary literary theory takes truth and meaning to be dependent on shared conventions in a community of discourse and views authors intentions as irrelevant to interpretation This view argues Reed Way Dasenbrock owes much to Anglo American analytic philosophy as developed in the 1950s and 1960s by such thinkers as Austin and Kuhn but it ignores more recent work by philosophers like Davidson and Putnam who have mounted a counterattack on this earlier conventionalism This book draws on current analytic philosophy to resuscitate the notion of objective truth and intentionalist models of meaning and interpretation thereby moving beyond the antifoundationalism of postmodern theory It addresses the work of Rorty and Fish as representative of literary conventionalism discusses the futility of Derrida s anti intentionalism and shows how poststructuralist thinkers like Althusser and Foucault have contributed to the new thematics of race class gender and sexual orientation that dominates literary theory today Examining the counter arguments of conventionalists to have their theory judged by its consequences Dasenbrock shows how damaging this antiobjectivism and anti intentionalism have been for literary studies *CLA Journal* ,2014 **CURRENT CONTENTS ARTS & HUMMANITIES JUNE 7, 1993** **VOLUME 15 NUMBER 12** ,1993 *The British Journal of Aesthetics* ,1993 **Notes and Queries** ,1992 **Agency After Postmodernism** David Gary Shaw,2001 *Racism* Leonard Harris,1999-04 No Marketing Blurb *American Literature for Non-American Readers* Meta Grosman,1995 What happens to American literary texts when they are read by non American readers The rise of cross cultural reception studies has made this a significant question and the present volume provides a rich set of answers The essays also make clear cross cultural readings are not to be regarded as less appropriate than American readings They are simply readings driven by different pragmatic situations involving readers with different expectations and first hand knowledge of different realities By exploring a variety of cultural reading experiences this book lays a useful groundwork for teachers and scholars interested in the cross cultural transmission of literary texts especially American teachers abroad who wish to understand their students responses *Arts & Humanities Citation Index* ,1994 *American Book Publishing Record* ,1991 Nommo ,1990
