Mujeres Insumisas:

Cine y Violencia contra las mujeres. Un enfoque caleidoscópico Andrés Lacasta, José Alberto, 2019 El hecho de que persista la violencia contra las mujeres en nuestra sociedad sigue siendo un problema alarmante y de extrema gravedad a pesar de los enormes avances registrados en su erradicación El cine como herramienta de comprensión y transformación social ha registrado históricamente un uso endémico en la representación de roles y estereotipos sobre la mujer cuya peor derivada es la injustificada violencia machista Este medio debe reivindicar su papel como elemento enculturizante así como de agente promotor del conocimiento y de la reflexión empática hacia el problema La violencia contra las mujeres necesita ser afrontada con propuestas que sirvan para desenmascarar los resortes que la ocultan y siguen justificando poniendo en evidencia unos modismos narratológicos y formales que es preciso analizar para arrinconarlos definitivamente **Mexico, Nation in Transit** Christina L. Sisk, 2013-09-15 This book argues for a deterritorialized notion of Mexican national regional and local identities by analyzing the representations of migration within Mexican and Mexican American literature film and music from the last twenty years Provided by publisher **Guía del cine** Carlos Aguilar Gutiérrez, 2018-09-27 El presente volumen encierra el diccionario de películas más extenso y variado en lengua española e incluye películas de toda índole y nacionalidad desde el cine mudo hasta el presente a o Cada entrada incluye los datos fundamentales título español y original a o y país de producción director guionista fotografía música duración e interpretaciones más una sinopsis orientativa Asimismo incluye dos índices el de directores con las películas recogidas en la obra relacionadas por orden cronológico y el de títulos originales con sus correspondientes españoles **2021 Mujeres Insumisas** Rocato Bablot (ed), 2021 **Gaceta médica catalana**, 1893 The Mexican Filmography, 1916 through 2001 David E. Wilt, 2024-10-17 Mexican cinema has largely been overlooked by international film scholars because of a lack of English language information and the fact that Spanish language information was difficult to find and often out of date This comprehensive filmography helps fill the need Arranged by year of release and then by title the filmography contains entries that include basic information film and translated title production company genre director cast a plot summary and additional information about the film Inclusion criteria a film must be a Mexican production or co production feature length one hour or more silent films excepted fictional documentaries and compilation films are not included unless the topic relates to Mexican cinema some docudramas and films with recreated or staged scenes are included and theatrically released or intended for theatrical release **Otherness in Hispanic Culture** Teresa Fernandez Ulloa, 2014-06-26 This book addresses contemporary discourses on a wide variety of topics related to the ideological and epistemological changes of the 19th 20th and 21st centuries and the ways in which they have shaped the Spanish language and cultural manifestations in both Spain and Hispanic America The majority of the chapters are concerned with otherness in its various dimensions the alien Other foreign immigrant ethnically different disempowered female or minor as well as the Other of different sexual orientation and or ideology Following Octavio Paz otherness is

expressed as the attempt to find the lost object of desire the frustrating endeavour of the androgynous Plato wishing to embrace the other half of Zeus who in his wrath tore off from him Otherness compels human beings to search for the complement from which they were severed Thus a male joins a female his other half the only half that not only fills him but which allows him to return to the unity and reconciliation which is restored in its own perfection formerly altered by divine will As a result of this transformation one can annul the distance that keeps us away from that which not being our own turns into a source of anguish The clashing diversity of all things requires the human predisposition to accept that which is different Such a predisposition is an expression of epistemological ethical and political aperture The disposition to co exist with the different is imagined in the de anthropocentricization of the bonds with all living realms And otherness is in some way the reflection of sameness mismidad The other is closely related to the self because the vision of the other implies a reflection about the self it implies consciously or not a relationship with the self These topics are addressed in this book from an interdisciplinary perspective encompassing arts humanities and social sciences
