Multicultiboho Sideshow:

The Columbia Guide to Contemporary African American Fiction Darryl Dickson-Carr, 2005-12-06 In both the literal and metaphorical senses it seemed as if 1970s America was running out of gas. The decade not only witnessed long lines at gas stations but a citizenry that had grown weary and disillusioned. High unemployment, runaway inflation, and the energy crisis caused in part by U.S. dependence on Arab oil characterized an increasingly bleak economic situation. As Edward D. Berkowitz demonstrates, the end of the postwar economic boom, Watergate, and defeat in Vietnam led to an unraveling of the national consensus. During the decade, ideas about the United States, how it should be governed, and how its economy should be managed changed dramatically. Berkowitz argues that the postwar faith in sweeping social programs and a global U.S. mission was replaced by a more skeptical attitude about government's ability to positively affect society. From Woody Allen to Watergate, from the decline of the steel industry to the rise of Bill Gates, and from Saturday Night Fever to the Sunday morning fervor of evangelical preachers, Berkowitz captures the history, tone, and spirit of the seventies. He explores the decade's major political events and movements, including the rise and fall of détente, congressional reform, changes in healthcare policies, and the hostage crisis in Iran. The seventies also gave birth to several social movements and the rights revolution, in which women, gays, and lesbians, and people with disabilities all successfully fought for greater legal and social recognition. At the same time, reaction to these social movements, as well as the issue of abortion, introduced a new facet into American political life. The rise of powerful, politically conservative religious organizations and activists. Berkowitz also considers important shifts in American popular culture, recounting the creative renaissance in American film, as well as the birth of the Hollywood blockbuster. He discusses how television programs such as *All in the Family* and *Charlie's Angels* offered Americans both a reflection of and an escape from the problems gripping the country. Colors, 1994 Many Voices Henry Johnson, 2010-04-16 This collection of fourteen essays provides a starting point to re-think music and national identity in Aotearoa New Zealand. The papers offer various perspectives on the interconnections between music and identity while providing case studies on diverse topics, including performance, composition, and musical styles. Based on a conference held at the University of Otago, the book covers three broad themes: Cultural Diversity, Popular Culture, and Education and High Art. Within any nation, individuals might have a cultural identity that is related to notions of being or becoming, or they may live transcultural lives. One consequence of the nation-state is that notions of national identity are often challenged and continually changing, often brought about by social and cultural flows such as those connected with music. The intention of this book is to open up critical discourse on the many musics of Aotearoa New Zealand. The papers represent a few sounds of a diverse nation and sounds that do much to represent place, very often Aotearoa New Zealand and beyond. The papers cannot cover everything, but what they can offer will hopefully open up further research on the many voices of those who call Aotearoa New Zealand home.
