Multiplicative Galois Module Structure:

Multiplicative Galois Module Structure A. Weiss, This text is the result of a short course on the Galois structure of S units that was given at The Fields Institute in the autumn of 1993 Offering a new angle on an old problem the main theme is that this structure should be determined by class field theory in its cohomological form and by the behaviour of Artin L functions at $s = 0$ A proof of this or even a precise formulation is still far away but the available evidence all points in this direction The work brings together the current evidence that the Galois structure of S units can be described This is intended for graduate students and research mathematicians specifically algebraic number theorists Multiplicative Galois Module Structure A.
