Malherbe,2013-10-10 Rather than viewing the Graeco Roman world as the background against which early Christian texts should be read Abraham J Malherbe saw the ancient Mediterranean world as a rich ecology of diverse intellectual traditions that interacted within specific social contexts These essays spanning over fifty years illustrate Malherbe s appreciation of the complexities of this ecology and what is required to explore philological and conceptual connections between early Christian writers especially Paul and Athenagoras and their literary counterparts who participated in the religious and philosophical discourse of the wider culture Malherbe s essays laid the groundwork for his magisterial commentary on the Thessalonian correspondence and launched the contemporary study of Hellenistic moral philosophy and early Christianity The Use of PAS in the New Testament J. William Johnston,2004 This book examines in detail the use of the pronominal adjective all each every in the Greek New Testament focusing on how syntactical patterns and the semantic value of words or phrases it modifies are factors determining its sense and scope These findings are applied to the interpretation of several debated passages in the New Testament Biblical Greek Language and Lexicography Frederick W.
