Multiple Chemical Sensitivities:

MCS: Multiple Chemical Sensitivity, 1994 *Multiple Chemical Sensitivities* National Research Council, Division on Earth and Life Studies, Commission on Life Sciences, 1992-02-01 Use of the term multiple chemical sensitivity MCS as a diagnostic label has generated increasing controversy during the past few decades as a phenomenon related to exposure to chemical agents sustained both in indoor and outdoor environments This volume prepared in conjunction with Biologic Markers in Immunotoxicology contains the authored papers of a workshop held to develop an agenda to study the phenomenon of multiple chemical sensitivity Authored by clinicians immunologists toxicologists epidemiologists psychiatrists psychologists and others involved in research or clinical activities relevant to the problem the papers contain case evaluations and criteria for diagnosis mechanisms potentially underlying MCS and epidemiologic approaches to investigation

Understanding Multiple Chemical Sensitivity Els Valkenburg, 2010-01-13 This personal view of multiple chemical sensitivity and environmental illness is supported by research In a question and answer format the effects of exposure to perfume smoke air fresheners cleaning products exhaust and other air contaminants are examined and linked to symptoms such as headaches allergies asthma and fatigue The book contains additional testimony and reports from 37 sufferers as well as listings of resources and related scientific articles *Living with Multiple Chemical Sensitivity* Gail

McCormick, 2009-10-21 The people profiled in this book tell how you can create a positive life when you no longer can work shop attend church and public events or socialize without unpleasant or worse consequences to your health from low level chemical exposures Living with Multiple Chemical Sensitivity is a collection of personal stories describing the lives and coping strategies of people with MCS from all over North America It describes dozens of alternatives to the kinds of isolation and hopelessness that threaten people with this illness Laced with inspiration courage and humor these stories dispel myths associated with people who have MCS and will help others to articulate their own experience of the illness to family friends coworkers and health care providers Foreword by Pamela Reed Gibson of James Madison University Appendices include a medical overview resources for further information and support and a sociologists view of MCS by Steve Kroll Smith director of the Environmental Social Science Research Institute University of New Orleans Includes photographs of persons whose lives are described *Defining Multiple Chemical Sensitivity* Bonnie L. Matthews, 2007-11-29 The number of people

suffering from Multiple Chemical Sensitivity MCS is greater than the number suffering from AIDS yet the general public and the medical community know very little about the disease More and more people are disabled daily despite the fact that the condition does not have to occur In Part One of this work experts review the research into the disease along with treatment strategies Part Two examines the legal recourses available to MCS sufferers such as workers compensation claims and product liability suits How the medical community has often worked against MCS sufferers is the focus of Part Three demonstrating that medical opposition to the disease is unfounded The editor an MCS sufferer details her own case in Part

Four Chemical Sensitivity Stephen J. Barrett, Ronald Gots, 2010-12-31 Chemical sensitivity or multiple chemical sensitivity describes people with numerous troubling symptoms attributed to environmental factors from simple housepaint to complex building structures and materials in offices and schools Many such people are seeking special accommodations applying for disability benefits and filing lawsuits claiming that exposure to common foods and chemicals has made them ill Their efforts are supported by some physicians who refer themselves as clinical ecologists They use questionable diagnoses and treatment methods while critics charge that these approaches are bogus and that chemical sensitivity is not a valid diagnosis The complaints associated with chemical sensitivity include depression irritability poor memory fatigue drowsiness constipation sneezing wheezing skin rashes headache chest pain pounding heart swelling upset stomach paralysis AIDS like illnesses psychotic experiences and just about every other symptom noted in medical textbooks One prominent clinical ecologist even claimed that chemical sensitivity patients may well be human canaries on an increasingly poisoned planet and others have actually labeled chemical sensitivity as a disease While some people are adversely affected by exposure to some chemicals there is an overwhelming increase in false claims and reports from misled obsessive patients and opportunistic doctors Chemical Sensitivity examines this phenomenon in depth and the scientific legal ethical and political issues that surround it The authors explore the speculations about environmental exposure in the light of scientific knowledge of human physiology allergy and immunology pathology toxicology and clinical medicine They evaluate cases of chemical sensitivity relative to controlled tests and reveal that symptoms were brought on by psychological factors rather than physical ones Chemical Sensitivity also critically assesses claims related to sick building syndrome mercury amalgam toxicity yeast allergy and Gulf War syndrome Chemical and Electrical Hypersensitivity Jerry Evans, 2014-01-10 Electrical and multiple chemical sensitivities are disabling illnesses yet many doctors know little of these conditions or worse dismiss them This timely memoir recounts one man's affliction The onset of the diseases is explored as is his struggle with the medical establishment largely hostile to his diagnosis When the symptoms became unbearable he was forced to leave home and seek a more healthful environment where he could begin his recovery This is an inspirational text for those living with electrical or multiple chemical sensitivity and an educational one for those first learning about these conditions *Living with Environmental Illness* Stephen Edelson, Jan Berliner Statman, 1998 People who have Multiple Chemical Sensitivity MCS are often disbelieved and misdiagnosed The interaction of low level chemicals that are constantly present in our environment cause sufferers of MCS to develop symptoms such as fatigue depression headaches sore throats asthma chest pains and circulation problems In *Living With Environmental Illness* the authors discuss how the growing numbers of chemicals we're exposed to daily have contributed to the sharp rise of environmental illnesses in recent years They provide a checklist for determining whether you may be suffering from MCS describe the ten developmental stages of the disease tell how to determine who is most at risk for developing symptoms and detail lifestyle changes that should be made for living with environmental illness In addition

five patient profiles of actual MCS sufferers reveal the highly individualized nature of the disease and an extensive resource section lists suppliers of nontoxic products and organizations that can help *My Journey Back to Health* Annette Falconett, 2015-05-30 In 1988 a common household cleaning product changed Annette Falconett's life forever Exposure to the product triggered Falconett's multiple chemical sensitivity MCS Bedridden for most of the following year with debilitating symptoms Falconett was unimpressed with traditional medicine's response to her condition She was told her condition was all in her head despite very real symptoms Others told her she wouldn't get better an attitude acknowledging her condition but offering no practical help Finding such explanations unacceptable Falconett chose to reclaim her health My Journey Back to Health recounts her experiences Working with sympathetic doctors and alternative medicine practitioners Falconett did what many thought impossible she learned to control her MCS symptoms MCS has both emotional and physical consequences affecting your interactions with everyone around you In a special chapter on growing up with an MCS parent Falconett's daughter offers a family member's perspective on both her mother's struggles and her own People with MCS are as Falconett notes the canaries in a chemical laden coalmine MCS is an indication of the effect modern reliance on chemicals has on our health That Falconett was able to overcome this pervasive condition offers hope to us all The Dispossessed, 1998 Profiles a variety of people in Arizona and New Mexico who suffer from environmental illnesses and chemical sensitivity *Defining Multiple Chemical Sensitivity* Bonnye L. Matthews, 2015-08-13 The number of people suffering from Multiple Chemical Sensitivity MCS is greater than the number suffering from AIDS yet the general public and the medical community know very little about the disease More and more people are disabled daily despite the fact that the condition does not have to occur In Part One of this work experts review the research into the disease along with treatment strategies Part Two examines the legal recourses available to MCS sufferers such as workers compensation claims and product liability suits How the medical community has often worked against MCS sufferers is the focus of Part Three demonstrating that medical opposition to the disease is unfounded The editor an MCS sufferer details her own case in Part Four
