## **Murder In China:**

*Murder in China* Charlotte Epstein,1989      *China's Bloody Century* R. J. Rummel,2011-12-31 Except for Soviet citizens no people in this century have endured so much mass killing as have the Chinese They have been murdered by rebels conniving with their own rulers and then after the defeat in war of the imperial dynasty by soldiers of other lands They have been killed by warlords who ruled one part of China or another They have been executed by Nationalists or Communists because they had the wrong beliefs or attitudes or were simply in the wrong place at the wrong time In China's Bloody Century R. J. Rummel's careful estimate of the total number of killings exceeds 5 million How do we explain such killings crossing ideological bounds and political conditions According to Rummel the one constant factor in all the Chinese mass murder as it was in the Soviet Union and Nazi Germany is arbitrary power It was the factor that united warlords Nationalists Communists and foreign armies The author argues that whenever such undisciplined power is centralized and unchecked the possibility exists that it will be used at the whim of dictators to kill for their own ends whether the aim is ethnic racial purity national unity development or utopia The book presents successive periods in modern Chinese history with each chapter divided into three parts Rummel first relates the history of the period within which the nature and the amount of killings are presented He then provides a detailed statistical table giving the basic estimates with their sources and qualifications The final part offers an appendix that explains and elaborates the statistical computations and estimates While estimates are available in the literature on the number of Chinese killed in Communist land reform or in Tibet or by the Nationalists in one military campaign or another until this book no one has tried to systematically accumulate organize add up and analyze these diverse killings for all of China's governments in this century For the first time in one place hundreds of published estimates of Chinese genocide and mass murder are listed with sources analyzed and their historical context presented This book will be of central interest to Sinologists Sovietologists and those interested in comparative politics and society      *China's Bloody Century* R. **The Unsolved Murder of a U. S. Citizen by China (Taiwan)**

**Murder and adultery in Late Imperial China** Meijer,2021-09-13 In this publication the development is traced of two sections of the chapter on Homicide of the penal code of the Qing dynasty 1644 1912 Murder and Homicide of an Adulterer The former

deals with premeditated homicide where there is no difference in status social or family relations between murderer and victim while in the latter we find the husband who kills his wife and her paramour when caught in the act In that case the husband was immune from prosecution provided that he committed the act at the time and at the site The first section developed in a clear and intelligent way with in general some logical provisions being added from the beginning till the end of the dynasty The second section however was enriched by 34 additional articles through legislation and judicial practice which with a view to promoting moral purity in society gradually circumvented the original restrictions to the husband s fury Consequently by accentuating the husband s important status and for the sake of maintaining the established hierarchy in society that section changed into a bad and cruel part of the law turning the husband s behaviour from an excusable exception into morally justified conduct and likewise the woman s misbehaviour into a mortal sin This has all been confirmed by the motivation of the legislation and sentences of the cases
