## Monarchs And Mercenaries:

*Monarchs and Mercenaries* John Schlight,1968      *Polity Consolidation and Military Transformation in Medieval Scandinavia* Beñat Elortza Larrea,2023-03-13 In this book Beñat Elortza Larrea analyses the processes of polity consolidation and military transformation in Scandinavia between the early eleventh and early fourteenth centuries Based on a plethora of administrative legal and narrative sources this study examines the development of governance and warfare in Denmark Norway and Sweden and evaluates to which degree European ideas and institutions shaped the budding medieval Scandinavian realms In other words did the formation of these kingdoms stem mostly from European influence were they a by product of a purely Scandinavian ethos or did they largely develop due to historical and geographical circumstances unique to each realm      *Lectures, vol. 1* Eugene O'Curry,1873      **On the Manners and Customs of the Ancient Irish** Eugene O'Curry,1873      Brutal Monarchies River Stone,AI,2025-03-21 Brutal Monarchies explores the lives and legacies of history's most ruthless rulers examining their oppressive tactics and the factors leading to their downfall The book delves into the nature of autocracy revealing how unchecked power can lead to widespread suffering It also analyzes the psychology of despots exploring the motivations and insecurities that shaped their brutal reigns A key insight is that while ruthlessness may secure power in the short term it ultimately sows the seeds of destruction The book examines social economic and cultural conditions that enabled these monarchs to rise and maintain power by drawing upon historical chronicles biographical accounts and political treatises The analysis spans various historical periods and geographical locations using case studies of notorious monarchs like Vlad the Impaler Qin Shi Huang and Leopold II of Belgium Each case study analyzes their methods of control their impact on their subjects and factors contributing to their demise The book progresses in three parts an introduction to tyrannical rule specific case studies and a synthesis drawing broader conclusions about tyranny and resistance This approach offers a comparative analysis of ruthless monarchs across cultures and time avoiding sensationalism while focusing on rigorous historical analysis By understanding the dynamics of tyranny readers can better recognize and resist authoritarian tendencies      **On the manners and customs of the ancient Irish, lects., ed. with an intr. by W.K.
