**Botanical Entanglements** Anna K. Sagal, 2022-08-18 To this day women face barriers in entering scientific professions and in earlier eras the challenges were greater still But in Botanical Entanglements Anna Sagal reveals how women s active participation in scientific discourses of the eighteenth century was enabled by the manipulation of social and cultural conventions that have typically been understood as limiting factors By taking advantage of the intersections between domesticity femininity and nature the writers and artists studied here laid claim to a specific authority on naturalist subjects ranging from botany to entomology to natural history more broadly Botanical Entanglements pairs studies of well known authors Eliza Haywood Charlotte Lennox Maria Edgeworth and Charlotte Smith with authors and artists who receive less attention in this context Priscilla Wakefield Maria Jacson Elizabeth Blackwell Henrietta Maria Moriarty and Mary Delany to offer a nuanced portrait of the diverse strategies women employed to engage in scientific labor Using socially acceptable forms of textual production including popular periodicals didactic texts novels illustrated works craftwork and poetry these women advocated for more substantive and meaningful engagement with the natural world In parallel the book also illuminates the emotional and physical intimacies between women plants and insects to reveal an early precursor to twenty first century theorizing of plant intelligence and human plant relationships Recognizing such literary and artistic entanglement facilitates a more profound understanding of the multifaceted relationship between women and the natural world in eighteenth century England Concrete ,1908 **Men, Masculinities, and Earth** Paul M. Pulé, Martin Hultman, 2021-08-03 This book considers issues of social and ecological significance through a masculinities lens Earth our home for aeons is reeling The atmosphere is heating up causing reefs to

bleach fisheries to collapse regions to flood and dry vast tracts to burn the polar ice caps to melt ancient glaciers to retreat biodiversity to decline exacerbated by the sixth great extinction and more Meanwhile social and economic disparities are widening Pandemics are cauterising global communities and altering our social mores Nationalism is feeding divisiveness and hate especially through men's violence Politically extreme individuals and groups are exalting freedom while scapegoating the marginalised Such are the symptoms of an emerging Anthropocene This anthology contends with these alarming trends pointing our attention towards their gendered origins Building on our monograph *Ecological Masculinities Theoretical Foundations and Practical Guidance* 2018 this collection of essays is framed as a dinner party conversation grouped into six discursive themes Their views reflect a growing community of practice whose combined efforts capture the most recent perspectives on masculine ecologisation Together they aim to help create a more caring world for all moving the ecological masculinities conversation forward as it becomes an established international and pluralised field of study
