## Montaigne Notre Nouveau Philosophe:

*Montaigne, notre nouveau philosophe* Joseph Macé-Scaron, 2011 Montaigne est notre contemporain absolu affirme Joseph Mac Scaron qui a décidé de cheminer en sa compagnie Ce livre n'est ni une biographie ni une analyse de plus de l'oeuvre de Montaigne mais une visite de ses textes par un lecteur du XXI<sup>e</sup> siècle avec l'intention de le remettre l'ordre du jour sans le mettre au goût du jour Joseph Mac Scaron brosse le portrait d'un homme mais aussi le tableau d'une époque pleine de bruit et de fureur qui connaît les guerres de religion le retour de l'obscurantisme les chasses aux sorcières le règne des vieilles féodalités Sombres temps qui voquent le nôtre On voyage donc dans cet essai pied cheval en carrosse et en barque Libre des modes et des interdits Montaigne qui ne perd jamais la mesure de ce qui est proprement humain nous apparaît comme le plus intime et le plus gai des amis parce qu'il est non un maître penser mais un maître vivre

**Tensions of Modernity** Daniel R. Brunstetter, 2012 Politics today is marked by tension between claims of universal human rights and diversity From the war on terror to immigration one of the major challenges facing liberalism is to understand the scope of equality in a world in which certain peoples are perceived to reject and or violently resist democratic principles This book revisits Europe's initial encounter with the Native Americans of the New World to shed light on how the West's initial defense of so called barbarians has influenced the way we think about diversity today and elucidate the arguments of exclusion that unconsciously permeate the moral world we live in In doing so Daniel R Brunstetter traces Bartolomé de Las Casas's oft heralded defense of the Native Americans in the sixteenth century through the French Enlightenment While this defense has been rightly lauded as an early example of human rights discourse tracing Las Casas's arguments into the eighteenth century shows how his view of equality enabled arguments legitimizing the annihilation by just war of those perceived to be barbarians This philosophical narrative can be useful when thinking about concepts such as just war multiculturalism and immigration or any area in which politics confronts radical difference

Elle est un objet d'étude central et permet de comprendre les choix des principaux acteurs de la planète la Chine Google et même chacun d'entre nous. Cet ouvrage s'interroge sur ses origines son devenir ses limites et sa place dans les sciences sociales. Car la puissance est devenue pratiquement plus complexe et mystérieuse aujourd'hui que par le passé. Mettre en scène les classements du PIB ou des dépenses militaires ne suffit plus pour l'appréhender tant elle investit toute la politique internationale. Si certaines formes de la puissance ont connu un succès médiatique récent comme le soft et le hard power c'est bien l'analyse détaillée de ses usages et de ses différents statuts qui donne voir les évolutions du système international les rapports de force entre tats leur déplacement et l'arrivée de nouveaux acteurs sur la scène internationale.
