Political Theory, Science Fiction, and Utopian Literature Tony Burns, 2010-02-19 Ursula K Le Guin's *The Dispossessed* is of interest to political theorists partly because of its association with anarchism and partly because it is thought to represent a turning point in the history of utopian dystopian political thought and literature and of science fiction Published in 1974 it marked a revival of utopianism after decades of dystopian writing According to this widely accepted view *The Dispossessed* represents a new kind of literary utopia which Tom Moylan calls a critical utopia The present work challenges this reading of *The Dispossessed* and its place in the histories of utopian dystopian literature and science fiction It explores the difference between traditional literary utopia and novels and suggests that *The Dispossessed* is not a literary utopia but a novel about utopianism in politics Le Guin's concerns have more to do with those of the novelists of the 19th century writing in the tradition of European Realism than they do with the science fiction or utopian literature It also claims that her theory of the novel has an affinity with the ancient Greek tragedy This implies that there is a conservatism in Le Guin's work as a creative writer or as a novelist which fits uneasily with her personal commitment to anarchism

Science Fiction and the Historical Novel Ian P. MacDonald, Kate Polak, 2024-09-16 If you woke to realize that you could rewrite your yesterday without knowing the kind of tomorrow it would grant you would you do it Are the authors of our destiny working with an outline or spit balling confusing plotlines Since the past changes possible futures to what alighting butterfly should we pay the most heed This book explores the liminal space between speculative fiction and the historical novel Staged as a transnational multicultural conversation it takes up a call originally made by Fredric Jameson in *Archaeologies of the Future* wherein he describes that flashpoint between speculative and historical genres as the symptom of a mutation in our relationship to historical time itself Drawing together postcolonial feminist cultural Indigenous and cognitive approaches *Science Fiction and the Historical Novel* asks what the past can offer a future oriented world and how the future can be imagined in relation to a past that seeks narratives of inevitability rather than possibility Engaged with the idea of the past as a model for the future authors in this volume probe the extent to which historical scripts delimit possibilities and how authors engaged with the practice of alternative pasts rewrite potentialities in the present

Critical Representations of Work and Organization in Popular Culture Carl Rhodes, Robert Westwood, 2007-12-21 This book challenges traditional organizational theory looking to representations of work and organizations within popular culture and the ways in which these institutions have also been conceptualized and critiqued
