The Other Side of Nothing Brad Warner, 2022-05-10 A reader friendly guide to Zen Buddhist ethics for modern times In the West Zen Buddhism has a reputation for paradoxes that defy logic In particular the Buddhist concept of nonduality the realization that everything in the universe forms a single integrated whole is especially difficult to grasp In *The Other Side of Nothing* Zen teacher Brad Warner untangles the mystery and explains nonduality in plain English To Warner this is not just a philosophical problem nonduality forms the bedrock of Zen ethics and once we comprehend it many of the perplexing aspects of Zen suddenly make sense Drawing on decades of Zen practice he traces the interlocking relationship between Zen metaphysics and ethics showing how a true understanding of reality and the ultimate unity of all things instills in us a sense of responsibility for the welfare of all beings When we realize that our feeling of separateness from others is illusory we have no desire to harm any creature Warner ultimately presents an expansive overview of the Zen ethos that will give beginners and experts alike a deeper understanding of one of the world's enduring spiritual traditions

The App Generation Gardner Howard, 2013-10-22 No one has failed to notice that the current generation of youth is deeply some would say totally involved with digital media Professors Howard Gardner and Katie Davis name today's young people *The App Generation* and in this spellbinding book they explore what it means to be app dependent versus app enabled and how life for this generation differs from life before the digital era Gardner and Davis are concerned with three vital areas of adolescent life identity intimacy and imagination Through innovative research including interviews of young people focus groups of those who work with them and a unique comparison of youthful artistic productions before and after the digital revolution the authors uncover the drawbacks of apps they may foreclose a sense of identity encourage superficial relations with others and stunt creative imagination On the other hand the benefits of apps are equally striking they can promote a strong sense of identity allow deep relationships and stimulate creativity The challenge is to venture beyond the ways that apps are designed to be used Gardner and Davis conclude and they suggest how the power of apps can be a springboard to greater creativity and higher aspirations
