Multicultural Nationalism:

Multicultural Nationalism Asifa M. Hussain, William L. Miller, 2006-07-20 When the focus is on black or Asian minorities Britain is frequently described as a multi cultural state But when the focus is on Scotland England and Wales Britain is also described as a multi national state Yet debates about multiculturalism and nationalism have been held in parallel without sharing even a common vocabulary This book is a pioneering study of how multiculturalism interacts with multinationalism especially within post devolution Scotland It gives equal attention to Scotland s largest visible and invisible minorities ethnic Pakistanis almost all of them Muslim and English immigrants Rising Scottish self consciousness could have posed a challenge both these minorities But in practice potential problems have proved themselves to be solutions integrating rather than alienating In the eyes of the minorities devolution has made Scots at once more proud and less xenophobic Even English immigrants feel devolution has defused tensions calmed frustrations and forced Scots to blame themselves rather than others for their problems Pakistanis have suffered increasing harassment but they attribute that to 9 11 not to devolution And Muslims adopt Scottish identities Scottish attitudes even Scottish nationalism consciously or unconsciously using these as tools of integration The book is based in part on large scale surveys of Pakistani and English minorities within Scotland and of the majority populations in Scotland and England But it is also based on systematic analysis of transcripts of focus group discussions with minorities revealing the variety of opinion within minorities as well as the contrasts between them In particular it presents a unique account of how Scottish Muslims express their feelings in a time of crisis

Multicultural Nationalism Ephraim Nimni, 2006 Can we reconcile multiculturalism and nationalism Is it possible to reconstitute a form of nationalism which is not based on notions of ethnic superiority or the territorial nation state This new book examines this crucial contemporary debate combining normative political theory and empirical material It addresses the key issues of ethnicity diversity autonomy minority rights This examination is underpinned by an analysis of classical theorists such as Otto Bauer and Karl Renner and leading contemporary thinkers such as Habermas Anthony Smith and Will Kymlicka Multicultural Nationalism is essential reading for all students of nationalism multiculturalism and ethnicity and of politics and sociology in general

Resilience of Multiculturalism Nasar Meer, Varun Uberoi, Thomas Sealy, 2024-09-30 Bringing together world leading scholars from the Global North and Global South this book interrogates ideas of multiculturalism and their resilience in politics policy and culture To do so each chapter critically engages with one of the foremost thinkers and proponents in the field Tariq Modood As a whole the book contributes to debates on citizenship and diversity identity and belonging and nationalism and migration

The Politics of Multiculturalism B. Pitcher, 2009-04-08 Taking as a case study the racial politics of the British state under New Labour this book advances an idea of multiculturalism as the only conceptual framework that is capable of making sense of the contradictions of contemporary race practice where racism is simultaneously rejected and reproduced

Multicultural Nationalism Gerald Kerner, 2005 Canadian citizenship has long

been characterized in opposition to that of our southern neighbour as a mosaic instead of a melting pot Acceptance of minority ethnic racial religious cultural and linguistic groups has largely been seen as key to our sense of what it means to be Canadian Such multiplicity however has given rise to ongoing debates over equality diversity identity and unity This groundbreaking work interrogates and expands the accepted modes of thinking through Canadian citizenship Drawing on feminist and postcolonial theorists Gerald Kerner undertakes a discourse analysis of Canadian constitutional and policy documents public speeches and media texts He examines and critiques what he sees as the two major competing understandings of how Canada ought to manage its diversity both of which seek to define an overarching notion of Canadian unity on the one hand the argument for differentiated citizenship or difference and on the other the case for universal and undifferentiated citizenship or equality Positing that each of these positions ends at the same impasse in its preoccupation with the challenges diversity represents for cohesion and stability Kerner undertakes an alternative a post nationalist multiculturalism that does not attempt to ask or answer the thorny unity question An important contribution to the critical literature on Canadian politics citizenship and multiculturalism Multicultural Nationalism will appeal to political scientists and philosophers as well as those with an interest in critical race theory liberal multiculturalism and law and society

Contemporary Nationalism David Brown,2003-09-02 This book examines the problematic politics of contemporary nationalism and the worldwide resurgence of ethno nationalist conflict It analyses the core theories of nationalism building upon these theories and offering a clear analytical framework through which to approach the subject This outstanding volume features detailed case studies discussing nationalist contention in areas including Spain Singapore Ghana and Australia as well as looking at Northern Ireland Kosovo and Rwanda disputes

The Ethnicity Reader Maria Montserrat Guibernau i Berdún,Montserrat Guibernau,John Rex,2010-01-11 Drawing on a wide range of examples the selections included examine theories of nationalism and consider issues of ethnic integration and conflict in the USA China Britain Germany Quebec Scotland Galicia Catalonia Kurdistan Iran Iraq and Somaliland among other countries and regions The reader however does not confine itself to the study of nationalism Many of the selections deal with the role of ethnicity in groups which are not nationalist at all but for which ethnicity is an important factor in the process of migration The concept of ethnicity is therefore discussed both in relation to group rights in existing nation states and in relation to transnational communities in a globalized world

Multicultural States David Bennett,2013-01-11 First book to address the multicultural debates across a range of countries eg USA Canada Australia New Zealand Ireland Very strong contributor list including Ien Ang Terry Eagleton Homi K Bhabha Henry A Giroux and Meaghan Morris

Democracy, Nationalism and Multiculturalism Ramón Máiz,Ferrán Requejo,2004-06-11 This book provides an up to date review of subnational and multicultural issues in Western multinational states

Politics in the Vernacular Will Kymlicka,2001-01-19 This volume brings together eighteen of Will Kymlicka's recent essays on nationalism multiculturalism and citizenship These essays

expand on the well known theory of minority rights first developed in his *Multicultural Citizenship*. In these new essays Kymlicka applies his theory to several pressing controversies regarding ethnic relations today. He responds to some of his critics and situates the debate over minority rights within the larger context of issues of nationalism, democratic citizenship and globalization. The essays are divided into four sections. The first section summarizes the state of the debate over minority rights and explains how the debate has evolved over the past 15 years. The second section explores the requirements of ethnocultural justice in a liberal democracy. Kymlicka argues that the protection of individual human rights is insufficient to ensure justice between ethnocultural groups and that minority rights must supplement human rights. In particular, Kymlicka explores why some form of power sharing such as federalism is often required to ensure justice for national minorities, why indigenous peoples have distinctive rights relating to economic development and environmental protection and why we need to define fairer terms of integration for immigrants. The third section focuses on nationalism. Kymlicka discusses some of the familiar misinterpretations and preconceptions which liberals have about nationalism and defends the need to recognize that there are genuinely liberal forms of nationalism. He discusses the familiar but misleading contrast between cosmopolitanism and nationalism and discusses why liberals have gradually moved towards a position that combines elements of both. The final section explores how these increasing demands by ethnic and national groups for minority rights affect the practice of democratic citizenship. Kymlicka surveys recent theories of citizenship and raises questions about how they are challenged by ethnocultural diversity. He emphasizes the importance of education as a site of conflict between demands for accommodating ethnocultural diversity and demands for promoting the common virtues and loyalties required by democratic citizenship. And finally he explores the extent to which globalization requires us to think about citizenship in more global terms or whether citizenship will remain tied to national institutions and political processes. Taken together these essays make a major contribution to enriching our understanding of the theory and practice of ethnocultural relations in Western democracies.

Multicultural Nationalism Asifa M. Hussain, William L. Miller, 2006-07-20. When the focus is on black or Asian minorities Britain is frequently described as a multi cultural state. But when the focus is on Scotland, England and Wales Britain is also described as a multi national state. Yet debates about multiculturalism and nationalism have been held in parallel without sharing even a common vocabulary. This book is a pioneering study of how multiculturalism interacts with multinationalism especially within post devolution Scotland. It gives equal attention to Scotland's largest visible and invisible minorities, ethnic Pakistanis almost all of them Muslim and English immigrants. Rising Scottish self consciousness could have posed a challenge to both these minorities. But in practice potential problems have proved themselves to be solutions integrating rather than alienating. In the eyes of the minorities devolution has made Scots at once more proud and less xenophobic. Even English immigrants feel devolution has defused tensions, calmed frustrations and forced Scots to blame themselves rather than others for their problems. Pakistanis have suffered increasing harassment but they attribute that to 9/11 not to devolution. And

Muslims adopt Scottish identities Scottish attitudes even Scottish nationalism consciously or unconsciously using these as tools of integration The book is based in part on large scale surveys of Pakistani and English minorities within Scotland and of the majority populations in Scotland and England But it is also based on systematic analysis of transcripts of focus group discussions with minorities revealing the variety of opinion within minorities as well as the contrasts between them In particular it presents a unique account of how Scottish Muslims express their feelings in a time of crisis **The Virtuous Citizen** Tim Soutphommasane, 2012-08-16 What does it mean to be a citizen in a multicultural society And what role must patriotism play in defining our relationship with our country and fellow citizens In *The Virtuous Citizen* Tim Soutphommasane answers these questions with a critical defence of liberal nationalism Considering a range of contemporary political debates from Europe North America and Australia over issues including multiculturalism national history civic education and immigration Soutphommasane argues that a love of country should be valued alongside tolerance mutual respect and public reasonableness as a civic virtue A liberal form of patriotism grounded in national identity is if anything essential for political stability in a diverse society This book is required reading not only for political theorists and philosophers but also for researchers and professionals in political science sociology history and public policy

Nationalism, Ethnicity, Citizenship Martyn Barrett, Chris Flood, 2020-05-15 Nationalism ethnicity and citizenship lie at the heart of many of the societal changes that are currently transforming countries across the world Global migration has undermined old certainties provided by the established framework of nation states with inward migration cultural diversity and transnational affiliations having become established facts of life in many countries These phenomena raise significant challenges for traditional conceptions of citizenship This book provides a detailed examination from a variety of disciplinary perspectives of contemporary issues relating to nationalism ethnicity and citizenship The book aims to take stock of current understandings in this area and to establish whether there are connections between the understandings that are being articulated within different social science disciplines The contributors who are all senior international figures in their respective fields are drawn from a range of disciplines including Politics Sociology Communication Media Geography Psychology and Education Collectively they address the following specific questions To what extent do multiculturalism and transnationalism undermine nationalism or on the contrary provoke its reassertion How do the multiple identities and multiple levels of belonging experienced today interact with traditional nationalist ideology Within multicultural societies how far do representations of cultural others still play a role in nationalist constructions of the nation How successfully have the welfare systems of nation states responded to the influx of migrants How have national politicians responded to the cultural diversity of their own countries and have they moved beyond the traditional logic of nationalism within their thinking Why are extreme right wing parties gaining increased levels of support What social and psychological resources do citizens require in order to function effectively at the political level within multicultural democratic societies How can the educational

systems of states which have traditionally been used for nationalist purposes be harnessed to enhance the competences needed by their citizens for successful living in multicultural societies. What changes need to be made to educational policies in order to ensure the effective integration of minority citizens? Despite the fact that they have been written from different disciplinary perspectives the various chapters in this book paint a consistent picture. They offer a view of a world in which nationalism is still very much a dominant ideology which configures the discourse and thinking of citizens and politicians alike about nation states, ethnic diversity, multiculturalism and citizenship. The crucial role of education is also highlighted with school systems being uniquely positioned to equip citizens with the psychological resources and intercultural competences that are needed to function effectively within multicultural societies.

Nationalism and Multiculturalism in a World of Immigration N. Holtug, K. Lippert-Rasmussen, S. Lægaard, 2009-04-30 This anthology contributes to the still emerging theoretical debates in political theory and philosophy about multiculturalism, nationalism and immigration. It focuses on multiculturalism and nationalism as factual consequences of and normative responses to immigration and on the normative significance or lack thereof of the notion of culture.

Nationalism Vs. Internationalism Wolfgang Zach, K. L. Goodwin, 1996 **Italian Americans in a Multicultural Society** American Italian Historical Association. Conference, 1994

Multiculturalism and American Democracy Symposium on Science, Reason, and Modern Democracy, 1998 The fourteen essays in this volume address the pros and cons of multiculturalism and explore its relationship with liberal democracy.

Politics in the Vernacular Will Kymlicka, 2001 This volume brings together 15 of Will Kymlicka's most important essays tackling pressing issues of immigration, nationalism, multiculturalism and the meaning of citizenship in today's increasingly pluralistic societies.

Intercultural Indians, Multicultural Mestizas Elizabeth Ann Lilliot, 2003 **Exhibiting Nation** Caitlin Gordon-Walker, 2016 Canada's brand of nationalism celebrates diversity so long as it doesn't challenge the unity, authority or legitimacy of the state. Caitlin Gordon Walker explores this tension between unity and diversity in three nationally recognized museums/institutions that must make judgments about what counts as too different in order to celebrate who we are as a people and nation through exhibits, programs and design. Although the contradictions that lie at the heart of multicultural nationalism have the potential to constrain political engagement and dialogue, the sensory feasts on display in Canada's museums provide a space for citizens to both question and renegotiate the limits of their national vision.
