Environmental Accountability in International Law Elisa Morgera,2020-09-03 This fully updated second edition of *Corporate Accountability in International Environmental Law* examines systematically all international sources of corporate accountability standards with specific reference to environmental protection and elaborates on their theoretical and practical implications for international environmental law The book argues that although international environmental law does not bind multinational corporations and other business entities growing practice points to the emergence and consolidation of international legal standards These standards allow adapting and translating inter State obligations embodied in
