## **Murder Masculinity:**

*Crime and Society* Donna Youngs, 2019-07-09 Much of a society's resources are devoted to dealing with or preparing for the possibility of crime. The dominance of concerns about crime also hint at the broader implications that offending has for many different facets of society. They suggest that rather than being an outlawed subset of social activity, crime is an integrated aspect of societal processes. This book reviews some of the direct and indirect social impacts of criminality, proposing that this is worthwhile not just in terms of understanding crime but also because of how it elucidates more general social considerations. A range of studies that examine the interactions between crime and society are brought together, drawing on a wide range of countries and cultures including India, Israel, Nigeria, Turkey and the USA as well as the UK and Ireland. They include contributions from many different social science disciplines which taken together demonstrate that the implicit and direct impact of crime is very widespread indeed. The chapters in this book were originally published as a special issue of *Contemporary Social Science*.

**Interconnecting the Violences of Men** Kate Seymour, Bob Pease, Sofia Strid, Jeff Hearn, 2024-11-04 This book aims to expand and enrich understandings of violences by focusing on gendered continuities, interconnections and intersections across multiple forms and manifestations of men's violence. In actively countering both the compartmentalisation of studies of violence by type and form and the tendency to conceptualise violence narrowly, it aims to flesh out and delimit understandings of violence. Bringing together cross disciplinary, indeed transdisciplinary perspectives, this book addresses how what are often seen as specific and separate violences connect closely and intricately with wider understandings of violence, how there are gendered continuities between violences and how gendered violences take many forms and manifestations and are themselves intersectional. Grounded by the recognition that violence is itself a form of inequality, the contributors to this volume traverse the intersectional complexities across both experiences of violent inequality and what is seen to count as violence. The international scope of this book will be of interest to students and academics across many fields including sociology, criminology, psychology, social work, politics, gender studies, child and youth studies, military and peace studies, environmental studies and colonial studies, as well as practitioners, activists and policymakers engaged in violence prevention.

*When Men Kill* Kenneth Polk, 1994-11-25 Important policy issues regarding the role of gender and class in homicide are raised by descriptions of various patterns of crimes committed exclusively by males. Case studies of four specific scenarios of violence supplement this qualitative statistical analysis.

**Criminology in Brief** Robert Heiner, 2020-11-16 This book offers a short and accessible introduction to criminology. Written in a clear and direct style, criminological theories are made more accessible for undergraduates and the workings of the criminal justice system are explained. Students will learn not only how the criminal justice system works but also how it does not work. Beyond introducing students to the basics, the book provides a persuasive argument that the criminal justice system we have in the United States comes nowhere close to our ideals for justice, doing little good in terms of crime control while doing

great harm to minorities and the poor Engaging and far ranging this text offers a condensed approach to the key themes and debates surrounding crime and justice and covers definitions and measurements of crime criminological theories crime typologies and contemporary issues in the criminal justice system It includes chapters on Criminological Methods and Data Biological Psychological and Classical Theories of Crime Sociological Theories of Crime Patterns of Crime The Police The Courts Corrections and the American Prison System Written by an experienced textbook author this book offers a critical approach to the subjects discussed and draws on topical examples such as Black Lives Matter the militarization of the police plea bargaining and the War on Drugs It is essential reading for Criminology courses within a Sociology Major and will also be of interest to Criminal Justice majors law students policymakers and informed citizens      **Critical Mass** Dinur

Blum,Christian Jaworski,2021-09-27 This book examines social patterns in 2 000 mass shootings in the United States between 2013 through 2020 While mass shootings are often described as psychological the authors show that there are social factors that produce the anger needed to commit a mass shooting These factors are fairly common and can be addressed to stem the anger earlier The factors include chronic poverty sudden unemployment relationship problems domestic violence social isolation and alcohol Common social strains can metastasize and be lethally dangerous By understanding the social factors we can reduce the anger and frustration people feel that would drive them to killing others

**Murder and Masculinity** Rebecca E. Biron,2000 Rebecca Biron breaks new ground in this study of masculinity violence and the strategic construction of collective political identities in twentieth century Latin American fiction By engaging current sociological psychoanalytic and feminist theories Murder and Masculinity analyzes the cliche of proving virility through violence against women Biron develops her argument through close readings of five works Jorge Luis Borges s *La intrusa* Armonia Somer s *El despojo* Clarice Lispector s *A Maca no Escuro* Manuel Puig s *The Buenos Aires Affair* and Reinaldo Arenas s *El Asalto* Although men murdering women is often interpreted as nothing more than machista misogyny Biron argues that the five narratives addressed in this book show that healed masculinities are essential to the achievement of cultural identity and political autonomy in Latin America The introduction to this study deftly situates Biron s work in relation to previous theoretical arguments on the social and political dimensions of Latin American writing The five subsequent chapters offer superb analyses of the individual texts Like their male protagonists who experiment with the psychological and legal extremes of gender division these narratives risk nonconformity to the laws of genre in their quest for liberation from violent social and literary conventions In combining elements of detective stories crime narratives psychological case studies and magical or grotesque realism they offer metafictional commentary on a network of discourses that confuses images of masculinity national identity and political autonomy in postcolonial Latin America      **Hatred, Murder and Male Honour** Stephen Tomson,2002 Based on evidence from a study of 74 anti homosexual homicides with male victims that occurred in New South Wales between 1980 and 2000 this report analyses the social characteristics of victims

and perpetrators and the situational factors involved as well as case studies outlining specific homicide scenarios. The study also examines the links between such killings and commonplace issues of male identity. The link to various aspects of masculinity including heterosexism and male honour that have community support leads to a critical scrutiny of the legal issues involved including the homosexual advance defence and the idea of homosexual panic as a legal defence.

**Seeing Social Problems** Ira Silver, 2024-10-14 Within the last four years the death of George Floyd brought a new level of urgency to understanding police violence the world experienced two of the three hottest years on record drug overdose deaths in the U S surpassed 100 000 per year for the first time the foreign born percentage of the population became the highest ever and COVID 19 transformed education work and public health. **Seeing Social Problems The Hidden Stories Behind Contemporary Issues Second Edition** shows students how to think about social problems in a new way by exploring the connection between their own experiences and larger social forces. The personal relevance of this book's content is at the forefront of every discussion. Chapters engage students in thinking about the world sociologically by focusing on case studies that represent broader social problems. In each chapter learning objectives attune students to important concepts. Two sets of discussion questions First Impressions and What Do You Know Now encourage students to recognize how the chapter has broadened their perspectives. An exploration of social policy at the end of each chapter shows students that how someone understands an issue influences the ways they go about addressing it. New to the Second Edition New chapter LGBTQ People and Their Critics explores different ways of understanding growing diversity in American society based on gender identity and sexual orientation. New chapter Education and Upward Mobility encourages readers to think more expansively about their schooling experiences starting when they were very young and continuing through college. New chapter Immigration and Border Security exposes competing ways of seeing the rising influx of migrants entering the U S from Mexico. New chapter Health and the Environment draws on discussion about familiar topics including Covid 19 obesity and climate change. New chapter Technology and Instant Pleasure motivates students to recognize the wider societal impacts of their frequent usage of mobile devices to make life more convenient.

**Gender, Crime, and Justice** Erin Katherine Krafft, Jo-Ann Della Giustina, Susan T. Krumholz, 2021-12-09 Gender Crime and Justice is a unique core textbook that introduces key concepts through case studies. Each chapter opens with a compelling case study that illustrates key concepts followed by a narrative chapter that builds on the case study to introduce essential elements. Each chapter features pedagogical elements learning objectives key terms review and study questions and suggestions for further learning and exploration. In addition to the unique case study approach this book is distinctive in its inclusion of LGBTQ experiences in crime victimization processing and punishment. Gender Crime and Justice also addresses masculinity and the role it plays in defining offenders and victims as well as challenges posed by the gender gap in offending.
