## New Star:

**Inside Family Viewing (Routledge Revivals)** James Lull, 2014-04-23 First published in 1990 this title presents a rich account of how television intersects with family life in American and other world cultures From an analysis of the political and cultural significance of China's most important television series to detailed descriptions of how families in the United States interpret and use television at home James Lull's ethnographic work marks an important stage in the study of the role of the mass media in contemporary culture This title will be of interest not only to those in media and communications but also to those in the broader fields of cultural anthropology and sociology

**Front Page Physics** A.J Meadows, M.M Hancock-Beaulieu, 1994-01-01 From the beginning of the newspaper industry scientific developments research and results have been reported in the press and more than once hit the headlines Presented in language that can be understood by all journalists have tirelessly detailed all exciting humorous and major developments in all areas of science In this book ten decades of newspaper article clippings on physical science have been compiled and placed in context with explanatory commentaries Each decade is preceded with a calendar of events giving the reader a chronological overview as to the content This book will undoubtedly fascinate surprise and amuse whether read from cover to cover or simply dipped into at random

**The Universe and the Stars, being an Original Theory on the Visible Creation, Founded on the Laws of Nature** Thomas Wright, 2025-07-26 Reprint of the original first published in 1837 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

*The Life and Times of Tycho Brahe* Mukesh Gupta, 2019-03-07 This book is a brief biography of one of the founding fathers of physics and astronomy Tycho Brahe lived an extraordinary life in a royal family to life under self exile His profound curiosity to explore the night sky and make observations is unparalleled in the history of astronomy His inventions of astronomical instruments before the telescope era for measuring the most precise positions of more than a thousand stars are remarkable achievements His wealth of astronomical data collected for approximately 21 years provided a firm ground for Johannes Kepler to discover the planetary laws of motion which opened the doors for Sir Isaac Newton to discover the laws of motion Tycho made the first direct measurements of a new star now known as Tycho's supernova The appearance of a new star opposed the established religious beliefs of the time Modern scientific discoveries would not have been possible without his foundational work of two precious decades in the late sixteenth century The book also shows rare pictures of his observatory instruments and places that give a true sense of the times in the late sixteenth century that shaped the future
