New Technologies and Enterprise Development in Africa Scott Tiffin, Fola Osotimehin, Richard Saunders, 1992

Entrepreneurship and Enterprise Development in Africa Daniel Agyapong, Rosemond Boohene, 2024-03-14

Entrepreneurship and Enterprise Development in Africa presents a timely and compelling account of African entrepreneurship shedding light on the critical part it plays in the continent's economic growth and development. It explores the various challenges, opportunities, and success stories that define the African entrepreneurial landscape and highlights the ingenuity and determination of the continent's entrepreneurial minds. Small Business and Entrepreneurial Development in Africa

Robert E. Hinson, Doreen Anyamesem Odame, Eric Kwame Adaye, Kwame Adom, 2023-10-31 This book explores the issues around small business and entrepreneurial activities in Africa within the context of frequent collapse of businesses, seizures by governments, lack of access to capital and raw materials, as well as the reliance on the informal sector. All these issues, the Editors argue, have been exacerbated by the advent of the COVID-19 pandemic. However, entrepreneurship must be at the heart of efforts to transform Africa's economic prospects to ensure sustained economic growth and decent work for all. In looking at the development of entrepreneurship for Africa's growth, contributors to this edited collection take an evolutionary approach by focusing on entrepreneurial intentions where entrepreneurial ideas are formed, customer management which is central to all entrepreneurial business success, and by also focusing on local and entrepreneurial business development. The book then ends with a discussion around technological innovations in small business development in Africa. Covering topics such as social entrepreneurship, international joint ventures, and the impact of digital platforms, this conceptual path provides rich contemporary insights for students, researchers, and policy makers and contributes to the achievement of SDG 8 targets. **Technology and Enterprise Development**

Sanjaya Lall, Giorgio Barba Navaretti, Simon Teitel, Ganeshan Wignaraja, 2016-07-27 The process of capability development is central to industrialization, but the current literature focuses on the advanced developing countries. This book, based on a World Bank sponsored study of enterprise development in Ghana, is the first to examine in detail how firms in least developed countries in Africa acquire technological capabilities. It analyses why Ghanaian firms are generally relatively uncompetitive, why some firms are better than others, and how the structural adjustment is affecting manufacturing development. The Importance of New Technologies and Entrepreneurship in Business Development: In The Context of Economic Diversity in Developing Countries

Bahaaeddin Alareeni, Allam Hamdan, Islam Elgedawy, 2021-03-12 This book introduces the students, researchers, and practitioners into the subject and enabling technologies and applications pertaining to technology entrepreneurship and business development through research articles, case studies, etc. It is primarily intended for academic purposes for learners of computer science, management, accounting, and information systems disciplines, economics, entrepreneurship. Publishing chapters in the book is a new innovative idea to spread the book in the Middle East and Arab countries and make the book achieve more sales. As

many students in all levels graduates and undergraduates in addition to research professionals are not able to get sufficient resources because of the language concern

Comparative Development Experiences of Sub-Saharan Africa and East Asia Ernest Aryeetey, 2017-11-01 Title first published in 2003 This comprehensive book focuses on the prevailing conditions in Asia and Africa under various macroeconomic and sectoral themes in order to provide in depth explanations for the divergent development experiences of the two regions Seeking to go further than the simple comparison of policies the book carefully examines the institutional context for policy implementation within which growth and development have proceeded in the regions

The Future of Entrepreneurship in Africa Robert Hinson, Doreen Nyarko Anyamesem Odame, Kojo Kakra Twum, Patient Rambe, Paul Agu Igwe, David Gamariel Rugara, 2023-08-22 This book focuses on entrepreneurial development and the development of small businesses in Africa The central idea of this book is that entrepreneurial development and small business development are connected Entrepreneurship is lauded as an engine of growth economic development and job creation with small businesses often contributing to new job creation Also entrepreneurship and small business development are the heart of many countries economies The decision to focus on entrepreneurial development and small business development is that first there is a consensus that most entrepreneurial activities are aimed at creating small new ventures Second countries that give special attention to entrepreneurship stand a chance of industrialization Third Africa has been reported as having a rich entrepreneurial landscape as the continent's wealthiest individuals generated their wealth as trailblazing entrepreneurs Fourth small scale entrepreneurs and businesses form the backbone of economic activities across the continent A motivation to focus on entrepreneurial and small business development is the generally accepted view that start ups in Africa are growing calling for understanding into how to enhance productivity efficiencies and application of new technologies The book aims to enhance the understanding of stakeholders business owners governments practitioners to overturn challenges such as inadequate start up capital competition lack of employees with the right skills and low use of technology The ability to develop entrepreneurship in Africa and the role of small medium enterprises cannot be underestimated The promotion of entrepreneurship in Africa is crucial as it creates jobs provides decent livelihoods and contributes to GDP Most entrepreneurial initiatives in developing economies entail identifying opportunities and new venture creation It is worth recognizing that most new ventures created take the form of small businesses and the entrepreneurial processes involve entrepreneurs knowledge and skills identifying opportunities involvement in setting up a business and managing the business The various aspects of this book focus on many entrepreneurial activities that are undertaken on the African continent This book is focused on African countries since there is a reason to be optimistic about the prospects for growth and entrepreneurship To achieve entrepreneurial success in African countries the African Development Bank 2021 proposes that there must be a link between macro and firm level characteristics that will serve as the mix of entrepreneurship in societies This book therefore considers some macro level factors such as education training and skills
