**Germany and the Axis Powers from Coalition to Collapse** R. L. DiNardo, 2005 It seemed that whenever Mussolini acted on his own it was bad news for Hitler Indeed the Fuhrer's relations with his Axis partners were fraught with an almost total lack of coordination Compared to the Allies the coalition was hardly an alliance at all Focusing on Germany's military relations with Italy Romania Hungary and Finland Richard DiNardo unearths a wealth of information that reveals how the Axis coalition largely undermined Hitler's objectives from the Eastern Front to the Balkans Mediterranean and North Africa DiNardo argues that the Axis military alliance was doomed from the beginning by a lack of common war aims the absence of a unified command structure and each nation's fundamental mistrust of the others Germany was disinclined to make the kinds of compromises that successful wartime partnerships demanded and because Hitler insisted on separate pacts with each nation Italy and Finland often found themselves conducting counterproductive parallel wars on their own DiNardo's detailed assessments of ground naval and air operations reveal precisely why the Axis allies were so dysfunctional as a collective force sometimes for seemingly mundane but vital reasons a shortage of interpreters for example His analysis covers coalition warfare at every level demonstrating

that some military services were better at working with their allies than others while also pointing to rare successes such as Rommel's effective coordination with Italian forces in North Africa. In the end while some individual Axis units fought with distinction if not on a par with the vaunted Wehrmacht and helped Germany achieve some of its military aims the coalition's overall military performance was riddled with disappointments. Breaking new ground DiNardo's work enlarges our understanding of Germany's defeat while at the same time offering a timely reminder of the challenges presented by coalition warfare.

Germany Under Hitler Mildred Salz Wertheimer, 1935      **The Impact of Nazism** Alan E. Steinweis, Daniel E. Rogers, 2003-01-01 The essays address the nature of Nazism as reflected in contemporary perceptions of Nazi Germany in the United States the origins and character of fascism the many forms of antisemitism German scholars efforts to promote persecution in the Third Reich the role of ethnic Germans in the anti Jewish and anti Slavic policies of the Reich the actions of German police in the occupation of eastern Europe and in the Holocaust Hitler's style of leadership the nazification of the German military high command and the politics surrounding the memory of Nazism and the Holocaust after 1945 BOOK JACKET

**Nazi Germany** Allan D. Hux, Frederick E. Jarman, 1986      **In the Shadow of the Holocaust** James F. Tent, 2003 James Tent recounts how these men and women from all over Germany and from all walks of life struggled to survive in an increasingly hostile society even as their Jewish relatives were disappearing into the East. It draws on extensive interviews with twenty survivors many of whom were teenagers when Hitler came to power to show how half Jews coped with conditions on a day to day basis and how the legacy of the hatred they suffered still lingers in their minds.

**The Return of Germany** Norbert Mühlen, 1953      **Hitler Strikes Poland** Alexander B. Rossino, 2003 Usually given short shrift in most histories of World War II Hitler's invasion of Poland was more than a series of opening salvos it was a testing ground for German brutalities to come. This is a comprehensive study of the campaign including insights into its ideological underpinnings.

How Nazi Germany Has Controlled Business Ludwig Hamburger, Brookings Institution, 1943      **Nazi Saboteurs on Trial** Louis Fisher, 2003 Esteemed legal scholar Louis Fisher chronicles the capture trial and punishment of eight German spies caught on American soil in 1942 and analyzes the use of military tribunals in this case to shield the government's chief investigators and sentencing decisions. 6 of the 8 died in the electric chair from public scrutiny and possible criticism.
