These volumes are collections of the Nobel lectures delivered by the Prizewinners together with their biographies, portraits and presentation speeches by representatives of the Norwegian Nobel Committee for the period 1971-1980. Each Nobel lecture is based on the work that won the laureate his prize. New biographical data of the laureates since they were awarded the Nobel prize are also included. statesmen such as Roosevelt Teddy and Mandela Some have been heroes or saints such as Martin Luther King and Mother Teresa Some belong in other categories where would you place Arafat Controversies also swirl around the awards to Kissinger Gorbachev Gore and Obama to name just a handful Probably no figure in this book is more interesting than a non laureate Alfred Nobel the Swedish scientist and entrepreneur who started the prizes The book also addresses missing laureates people who did not win the peace prize but might have or should have Gandhi Peace They Say is enlightening and enriching and sometimes even fun It has its opinions but it also provides what is necessary for readers to form their own opinions What is peace anyway All these people who have been crowned champions of peace and the world's foremost should they have been Such is the stuff this book is made on
