Non Accelerator Particle Physics:

Non-accelerator Particle Physics, Hans Volker Klapdor-Kleingrothaus, Andreas Staudt, 1995-09-28 A comprehensive introduction to the investigation of central problems in particle physics via non accelerator experiments bringing research in particle and nuclear physics together with astrophysics and cosmology The first three chapters describe the current standard models of particle physics and cosmology including an account of the limitation

Non-accelerator Particle Physics, 1988 Non-accelerator Particle Astrophysics School on Non-Accelerator Particle Astrophysics 1995, Trieste, Italy, Giacomelli Giorgio, 1996 The volume presents a broad coverage of this timely subject The work is up to date and detailed enough to constitute a fine reference for experimental as well as for theoretical physicists but also maintains an informative pedagogical tone so that it can serve as the basis for a modern course on the subject Major sections include fundamentals of particle physics with results from accelerator experiments the particle cosmology interface neutrino physics large scale searches for proton decay and for exotic matter in the universe neutrino astronomy the physics of cosmic rays and gamma ray astronomy A portion of the volume deals with facilities and instrumentation for particle astrophysics and on data acquisition

Non-accelerator Particle Physics: Proceedings Of The International Conference R Cowsik, 1995-08-31 This international conference focussed on several exciting frontier areas of particle physics at energy scales not realizable in terrestrial accelerators and their significance in the fields of astrophysics and cosmology The topics discussed included physics beyond the standard model violations of discrete symmetries neutrino physics neutrino astronomy experimental detection of dark matter gravitation and feebler new forces cosmic rays etc Some of the highlights are the latest results from the Kamiokande neutrino detector and status reports on experimental facilities under commission to detect solar and atmospheric neutrinos WIMP s and dark matter candidates
