Nonbillable Hours

Joan Williams, Cynthia Thomas Calvert

Nonbillable Hours:

Nonbillable Hours Ronald B. Schram, 2005-06 SWORDS AND PLOWSHARES is an epic tale of one family's struggles in the cauldron that shaped modern America. The Civil War. More than merely a war novel though, SWORDS AND PLOWSHARES traces three generations of the Barger family in an historically accurate narrative that extends from Tennessee to Missouri and from the 1820s into the twentieth century. The book focuses on the lives of two remarkable men, Allen Barger and his son James. It is a story of their triumph over the rigors and hardships of frontier life during the 19th century, of their love and sorrow, their struggles and battles, their successes and failures, and of the abiding religious conviction that gave them the strength to endure. From a genealogical prospective, the book is a living family history. Historical and genealogical research have been combined to bring to life generations of an American family. From an historical perspective, the novel provides a grippingly realistic portrayal of life in mid-nineteenth Century America and of the hardworking, God-fearing people who built this nation and held it together when it was torn asunder. Allen Barger and James Barger typify countless nameless legions of the common folk that made America what it is today, and the retelling of their story honors every family descended from the stalwart stock of the American frontier.

Public Interest Law Burton A. Weisbrod, Joel F. Handler, Neil K.

Komesar, 2023-07-28 What is public interest law? How effective is it? What are the limits to litigation as a mechanism for conflict resolution? In this study, economists, lawyers, and sociologists evaluate an institutional form that is new to American society and indeed to the world: the public interest law (PIL) organization. The book introduces the reader to the structure, resources, and activities of this nonprofit industry and also to the factors that affect PIL firms in their choices of cases and methods of handling them. The authors examine PIL's vast range of contemporary public policy concerns. These include such general topics as the environment, consumerism, housing, employment discrimination, medical care, occupational health and safety, education, finance, and taxation. A number of case studies are presented and a method for economic analysis and evaluation is introduced and applied. The study points to PIL's success in advocating underrepresented interests in winning courtroom decisions and in translating legal victories into reallocations of resources. At the same time, it notes the bias of PIL towards test case litigation, a propensity to focus on judicial victories rather than on real social change, and a tendency to use lawyers even when other types of professionals might be more effective. Many of these problems stem from uncertainty of funding and legal restrictions on nonprofit organizations. The result is a set of hurdles that distracts PIL firms from their principal goals. The authors do not limit themselves to PIL but comment on the effectiveness of legal instruments as devices for social change and on the behavior of the voluntary nonprofit sector, a little-studied portion of the economy. The book presents a fresh approach to the study of both collective-type economic problems and institutional setting in which public interest law works. What is public interest law? How effective is it? What are the limits to litigation as a mechanism for conflict resolution? In this study, economists, lawyers, and sociologists evaluate an institutional form that is new to American society.
