The Dancer's Dance Laura Reid Grand-Jean,2001 Currently online treatments of Zora Neale Hurston s work mimic the canon s early dismissal of her Although a few well constructed sites devoted to Hurston herself exist as of now no critical account of her work appears In keeping with the tradition of Hemenway and Walker s rediscovery of Hurston this site hopes to begin to fill this vacuum by providing an e text of *Mules and Men* arguably Hurston s most important contribution to African American culture Documenting the folktales and hoodoo practices of southern blacks in the 1930 s Hurston captures a culture that overcomes the adversity of poverty racism and sexism by in her words hitting a straight lick wid a crooked stick *Mules and Men* *Mules and Men* is still a complex and controversial text today because as Barbara Johnson states it is a book with multiple frames Johnson p 66 Any reading of the text must therefore account for these various frames This site hopes to do so by providing an account of a few of the innumerable ways in which *Mules and Men* may be read More than merely providing the e text of *Mules and Men* this site documents the world recorded by Zora Neale Hurston through augmenting the text with elements unavailable to the medium of the original work Visitors will find both Hurston s recordings of the folksongs that appear in the text and photographs documenting her folklore collecting trips

Our Mothers, Our Powers, Our Texts Teresa N. Washington,2005-06-27 Washington writes supple and thoughtful prose and creatively integrates African and African derived terminology which never distract the reader I consider

Our Mothers Our Powers Our Texts not only a brilliant study but also a model to be emulated Ouseyounou B Traore William Patterson University j is a Yoruba word that signifies a spiritual power of vast potential as well as the human beings who exercise that power Although both men and women can have j its owners and controllers are women the literal and cosmic Mothers who are revered as the gods of society Because of its association with female power its invisibility and profundity j is often misconstrued as witchcraft However as Teresa N Washington points out in Our Mothers Our Powers Our Texts j is central to the Yoruba ethos and cosmology Not only does it underpin the concepts of creation and creativity but as a force of justice and retribution j is essential to social harmony and balance As Africans were forced into exile and enslavement they took j with them and continued its work of creating destroying harming and healing in the New World Washington seeks out j s subversive power of creation and re creation in a diverse range of Africana texts from both men and women from both oral and contemporary literature and across space and time She guides readers to an understanding of the symbolic methodological and spiritual issues that are central to important works by Africana writers but are rarely elucidated by Western criticism She begins with an examination of the ancient forms of j in Yoruba culture which creates a framework for innovative readings of important works by Africana writers including Zora Neale Hurston Toni Morrison Ben Okri Wole Soyinka Jamaica Kincaid and Ntozake Shange This rich analysis will appeal to readers of Africana literature African religion and philosophy feminist studies and comparative literature

Zora Neale Hurston Cynthia Davis, Verner D. Mitchell, 2013-05-09 Zora Neale Hurston 1891 1960 the most prominent of the Harlem Renaissance women writers was unique because her social and professional connections were not limited to literature but encompassed theatre dance film anthropology folklore music politics high society academia and artistic bohemia Hurston published four novels three books of nonfiction and dozens of short stories plays and essays In addition she won a long list of fellowships and prizes including a Guggenheim and a Rosenwald Yet by the 1950s Hurston like most of her

Harlem Renaissance peers had faded into oblivion An essay by Alice Walker in the 1970s however spurred the revival of Hurston s literary reputation and her works including her 1937 novel *Their Eyes Were Watching God* have enjoyed an enduring popularity Zora Neale Hurston An Annotated Bibliography of Works and Criticism consists of reviews of critical interpretations of Hurston s work In addition to publication information each selection is carefully crafted to capture the author s thesis in a short pithy analytical framework Also included are original essays by eminent Hurston scholars that contextualize the bibliographic entries Meticulously researched but accessible these essays focus on gaps in Hurston criticism and outline new directions for Hurston scholarship in the twenty first century Comprehensive and up to date this volume contains analytical summaries of the most important critical writings on Zora Neale Hurston from the 1970s to the present In addition entries from difficult to locate sources such as small academic presses or international journals can be found here Although intended as a bibliographic resource for graduate and undergraduate students this volume is also aimed toward general readers interested in women s literature African American literature American history and popular culture The book will also appeal to scholars and teachers studying twentieth century American literature as well as those specializing in anthropology modernism and African American studies with a special focus on the women of the Harlem Renaissance

Of Mules and Men James E. Spears,1996 *Native Speakers* María Eugenia Cotera,2008-12-01 In the early twentieth century three women of color helped shape a new world of ethnographic discovery Ella Cara Deloria a Sioux woman from South Dakota Zora Neale Hurston an African American woman from Florida and Jovita Gonz lez a Mexican American woman from the Texas borderlands achieved renown in the fields of folklore studies anthropology and ethno linguistics during the 1920s and 1930s While all three collaborated with leading male intellectuals in these disciplines to produce innovative ethnographic accounts of their own communities they also turned away from ethnographic meaning making at key points in their careers and explored the realm of storytelling through vivid mixed genre novels centred on the lives of women In this book Cotera offers an intellectual history situated in the borderlands between conventional accounts of anthropology women s history and African American Mexican American and Native American intellectual genealogies At its core is also a meditation on what it means to draw three women from disparate though nevertheless interconnected histories of marginalization into conversation with one another Can such a conversation reveal a shared history that has been erased due to institutional racism sexism and simple neglect Is there a mode of comparative reading that can explore their points of connection even as it remains attentive to their differences These are the questions at the core of this book which offers not only a corrective history centred on the lives of women of colour intellectuals but also a methodology for comparative analysis shaped by their visions of the world

Wrapped in Rainbows Valerie Boyd,2003 Traces the career of the influential African American writer citing the historical backdrop of her life and work while considering her relationships with and influences on top literary intellectual and artistic figures
