Ralf Carter, 2017-06-19 Poverty is impossible at least according to all those offers flooding us daily with their promises of generous wealth without additional work Many of those offers turn out to be Multi Level Marketing MLM opportunities Well either MLM has voided the limits imposed by mathematics of MLMs are just plain fraud Or and that thought may come as a surprise the offer isn t MLM at all but simply a scam In times when even average people on Main Street are sucked in by cryptocurrency fraudsters with buzz words like Bitcoin and BTC Investment when financial fantasies are running wild and bringing back memories of the late 90 s tech bubble the paradise lost for fraudsters and scammers in such times some words of clarity seem in order This book discusses whether you ever will be able to generate a profit with MLMs or if those constructs are more or less generally rip offs Is there even a single legit pyramid scheme The book lays out in front of you the inner workings of how MLMs are supposed to operate and why they quite frequently just don t function at all You ll read the 7 criteria you can use to figure out if you should continue listening to your old buddy from highschool or if you better slam the door close right in front of him This book doesn t use generalized judgements of the everybody knows kind instead it shows in detail why certain aspects are important and how you use them All that glitters is not gold but not everything in the trash heap is trash either The author is certainly not adverse to the concept of network marketing as a model However he has severe issues with the large numbers of dangerously negligent promoters and the related sizeable number of outright criminals whose games need to be stopped better sooner than later The author also is quite clear about government being the very last institution we should look to for help after all these very governments are operating the largest of all ponzi schemes The government volunteering help against fraudsters in the muddy waters of multi level marketing is akin to the pot calling the kettle black Instead the author shows how this swamp can be dried up quickly by providing compact and understandable information Since MLMs are international in nature discussed topics include aspects from an US as well as from an EU point of view
