## **Multilateral Diplomacy / La diplomatie multilatérale:**

Multilateral Diplomacy / La diplomatie multilatérale E.M. Chossudovsky, Jacques Lemoine, M.A. Boisard, 2023-09-25 In the first part of this book distinguished diplomats and eminent academics have contributed papers on the concept of international organization on international conference diplomacy and on negotiating strategies while experts have provided practical advice on conference management and tips on getting ideas and positions heard and understood in this particular setting A second part includes notices on the United Nations organizations headquartered in Geneva with special emphasis on what may be called their institutional culture and a third part including an invaluable presentation by the Swiss Department of Foreign Affairs is devoted to the question of privileges and immunities There are many studies academic or otherwise on the United Nations organizations but hardly any provide this kind of practical guidance for diplomats and national officials first confronted with the Geneva multilateral setting The book is primarily intended for them but is also of interest for those concerned with international relations **The Charter of the United Nations** Nikolai

Wessendorf, 2012-11-22 Since the second edition of this commentary on the Charter of the United Nations was published the text of the Charter may not have changed but the world has The wars in Iraq and Afghanistan have had a lasting impact on international law and the Commentary has been fully updated to take their impact into account The new edition has been completely revised and features a completely new chapter on UN reform analyzing the effect of reforms which have already been implemented and examining why other proposals for reform have failed It will assess how these proposals could be improved with a particular focus on the Security Council This new edition also includes coverage of the creation of the Human Rights Council and the impact of the Responsibility to Protect doctrine This is the authoritative article by article account of the legislative history interpretation and practical application of each and every Charter provision Written by a team of distinguished scholars and practitioners this book combines academic research with the insights of practice and is an indispensable work of reference for all those interested in the UN The Commentary will be crucial in providing new directions for the development of international law and the United Nations in the twenty first century *Crisis of*

*Multilateralism? Challenges and Resilience* Auriane Guilbaud, Franck Petiteville, Frédéric Ramel, 2023-10-18 This book explores the challenges that multilateralism faces today and questions the idea of a crisis of multilateral cooperation and international organizations It accounts for the pressures on and power shifts in multilateralism in recent years such as the war in Syria the Covid 19 pandemic challenges for NATO the erosion of multilateral norms the transition from Trump to Biden the rise of China the post Brexit European Union and the mobilization of countries from the South The authors illustrate the resilience of multilateralism and lessons learned from the WTO UN Women International Organizations Secretariats and global environmental governance Written in part by members of the Research Group on Multilateral Action GRAM this volume argues that crisis should not be considered a pathology but the matrix of multilateralism which is more

resilient than commonly thought This book will be of interest to students and scholars of International Relations global governance and international organizations *Global Diplomacy* Thierry Balzacq, Frédéric Charillon, Frédéric Ramel, 2019-11-08 This volume brings together different approaches to diplomacy both as an institution and a practice The authors examine diplomacy from their own backgrounds and through sociological traditions which shape the study of international relations IR in Francophone countries The volume s global character articulates the Francophone intellectual concerns with a variety of scholarships on diplomacy providing a first contact with this subfield of IR for students and practitioners **Routledge Handbook of International Organization** Bob Reinalda, 2013-06-07 This Handbook brings together scholars whose essays discuss significant issues with regard to international organization as a process and international organizations as institutions Although the focus is on intergovernmental organizations IGOs non governmental organizations NGOs are discussed where relevant The handbook is divided into six parts Documentation Data Sets and Sources International Secretariats as Bureaucracies Actors within International Bureaucracies Processes within International Bureaucracies Challenges to International Organizations and Expanding International Architectures The state of the art articles are meant to encourage current and future generations of scholars to enjoy working in and further exploiting the field and are also of great interest to practitioners of international organization and global governance **Great Powers' Foreign Policy**, 2022-12-19 By comparing the great powers foreign policy this book investigates the global competition and revisionist attempts to dismantle the Western liberal order Since February 2022 the international system has been challenged by the Russian invasion in Ukraine and its profound multiple consequences Putin s War has reinvented the West But still this is not the end of history To illustrate that tensions between democratic and autocratic great powers are nowadays at their peak since the end of the Cold War one should consider President Biden s words in Warsaw referring to President Putin For God s sake this man cannot remain in power **The Cumulative Book Index**, 1999

**Documentation politique internationale**, 2003 Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set) Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *Historical Abstracts* Eric H. Boehm, 1993 *United Nations Secretaries General* Peter J. Kelly, 1999 The United Nations has fought an uphill battle since its formation in 1945 One General Secretary after another has fought unruly members the tendency of several countries to ignore UN resolutions and continuous budget difficulties caused in part by the refusal of deadbeat countries to pay their dues In spite of these problems the UN has numerous successes to its credit If the world is not to go up in flames the United Nations will play an even larger role in the future Before this can happen however the world will require leaders with more foresight and courage than those around now The Secretaries General of the UN have laboured sometimes in obscurity to accomplish their missions This book gathers together citations including abstracts from the journal literature books government reports and edited collections
