Multinational Democracies:

Crafting State-Nations Alfred Stepan, Juan J. Linz, Yogendra Yadav, 2011-03-31 Political wisdom holds that the political boundaries of a state necessarily coincide with a nation's perceived cultural boundaries. Today the sociocultural diversity of many polities renders this understanding obsolete. This volume provides the framework for the state nation, a new paradigm that addresses the need within democratic nations to accommodate distinct ethnic and cultural groups within a country while maintaining national political coherence. First introduced briefly in 1996 by Alfred Stepan and Juan J. Linz, the state nation is a country with significant multicultural even multinational components that engenders strong identification and loyalty from its citizens. Here Indian political scholar Yogendra Yadav joins Stepan and Linz to outline and develop the concept further. The core of the book documents how state nation policies have helped craft multiple but complementary identities in India in contrast to nation state policies in Sri Lanka which contributed to polarized and warring identities. The authors support their argument with the results of some of the largest and most original surveys ever designed and employed for comparative political research. They include a chapter discussing why the U.S. constitutional model often seen as the preferred template for all the world's federations would have been particularly inappropriate for crafting democracy in politically robust multinational countries such as India or Spain. To expand the repertoire of how even unitary states can respond to territorially concentrated minorities with some secessionist desires, the authors develop a revised theory of federacy and show how such a formula helped craft the recent peace agreement in Aceh, Indonesia. Empirically thorough and conceptually clear, *Crafting State Nations* will have a substantial impact on the study of comparative political institutions and the conception and understanding of nationalism and democracy.

Multinational Democracies Alain-G. Gagnon, James Tully, 2001-08-06 *Multinational Democracies* is the first collaborative multi-perspective critical survey of a new and distinctive type of political association that is coming into prominence in the twenty-first century. These are democratic societies that are not only multicultural but also multinational; that is, they comprise two or more nations. Nineteen leading comparative political scientists and political theorists from Europe and North America clarify the complex character and tensions of multinational democracies by reflecting on four exemplars: the United Kingdom, Spain, Belgium, and Canada. The work offers a new approach to the study, understanding, and governing of multinational societies and, in so doing, of culturally diverse societies more generally. This volume will be of interest to those concerned with diverse societies, nationalism, struggles for recognition, federalism, and democratic constitutionalism in conditions of pluralism.

Assessing Multiculturalism in Global Comparative Perspective Yasmeen Abu-Laban, Alain-G. Gagnon, Arjun Tremblay, 2022-12-30 In *Assessing Multiculturalism in Global Comparative Perspective*, a group of leading scholars come together in a multidisciplinary collection to assess multiculturalism through an international comparative perspective. Multiculturalism today faces challenges like never before through the concurrent rise of populism and white supremacist groups and contemporary social movements mobilizing

around alternative ideas of decolonization anti racism and national self determination Taking these challenges head on and with the backdrop that the term multiculturalism originated in Canada before going global this collection of chapters presents a global comparative view of multiculturalism through both empirical and normative perspectives with the overarching aim of comprehending multiculturalism s promise limitations contemporary challenges trajectory and possible futures Collectively the chapters provide the basis for a critical assessment of multiculturalism s first 50 years as well as vital insight into whether multiculturalism is best equipped to meet the distinct challenges characterizing this juncture of the 21st century With coverage including the Americas Europe Oceania Africa and Asia and thematic coverage of citizenship religion security gender Black Lives Matter and the post pandemic order **Assessing Multiculturalism in Global Comparative Perspective** presents a comprehensively global collection that is indispensable reading for scholars and students of diversity in the 21st century Peacebuilding, Constitutionalism and the Global South Kajit Bagu (John Paul),2019-07-05 This book

presents the case that liberal constitutionalism in the global South is a legacy of colonialism and is inappropriate as a means of securing effective peace in regions that have been subject to recurrent conflict The work demonstrates the failure of liberal constitutionalism in guaranteeing peace in the postcolonial global South It develops an alternative more compelling constitutionalism for peacebuilding in conflicted regions This is based on constitutionalism that recognises plurality as a major feature in the global South Drawing on events in Nigeria it develops a constitutional model based on Cognitive Justice which could deliver peace by addressing historic conceptual legal institutional and structural issues that have created social inequality and injustice The study also incorporates insights from the development of plurinational constitutions in South America The book will be an invaluable resource for researchers academics and policy makers with an interest in constitutional legal theory peacebuilding and postcolonial studies **Constitutional Politics in Multinational**

Democracies André Lecours,Nikola Brassard-Dion,Guy Laforest,2021-07-15 Constitutional politics is exceptionally intense and unpredictable It involves negotiations over the very nature of the state and the implications of self determination Multinational democracies face pressing challenges to the existing order because they are composed of communities with distinct cultures histories and aspirations striving to coexist under mutually agreed upon terms Conflict over the recognition of these multiple identities and the distribution of power and resources is inevitable and indeed part of what defines democratic life in multinational societies In **Constitutional Politics in Multinational Democracies** Andr Lecours Nikola Brassard Dion and Guy Laforest bring together experts on multinational democracies to analyze the claims of minority nations about their political future and the responses they elicit through constitutional politics Essays focus on the nature of these states and the actors and political process within them This framework allows for a multidimensional examination of crucial political periods in these democracies by assessing what constitutional politics is who is involved in it and how it happens Case studies include Catalonia and Spain Puerto Rico and the United States Scotland and the United Kingdom

Belgium Bosnia and Herzegovina and Quebec and the M tis People in Canada Theoretically significant and empirically rich Constitutional Politics in Multinational Democracies is a necessary read for any student of multinationalism *Federalism, Citizenship and Quebec* Alain G. Gagnon, Raffaele Iacovino, 2006-12-02 Canadians often imagine their country as a multicultural democracy while a few go further to claim that the country s diversity can be characterized as multinational in its social and institutional make up In *Federalism Citizenship and Quebec* Alain G Gagnon and Raffaele Iacovino reveal how this notion has been falsely presented to the populace Through comprehensive historical contemporary and critical accounts they argue that the country has been the object of an aggressive nationalizing project that contravenes the principles of a multinational federation Gagnon and Iacovino defend a conception of diverse citizenship for Canada that is truly suitable to a durable and just constitutional association and provide an alternative path for the country based on normative socio political and practical considerations associated with multinational democracy Including a detailed account of the main challenges associated with Quebec s place in the federation *Federalism Citizenship and Quebec* stands apart from other English language studies on multinational democracy citizenship and federalism and most notably multinational democracy in Canada Gagnon and Iacovino ground their work in both history and theory offering a truly interdisciplinary approach that will appeal to scholars from fields as diverse as Canadian and Quebec politics comparative politics and political and legal theory The book will contribute to awareness of the need for appreciating diversity in contemporary societies while being a useful addition to English Canadian students in these fields who often lack exposure to many of the rich debates proceeding in Quebec

European Conquest and the Rights of Indigenous Peoples Paul Keal, 2003-08-28 Paul Keal examines the historical role of international law and political theory in justifying the dispossession of indigenous peoples as part of the expansion of international society He argues that paradoxically law and political theory can now underpin the recovery of indigenous rights At the heart of contemporary struggles is the core right of self determination and Keal argues for recognition of indigenous peoples as peoples with the right of self determination in constitutional and international law and for adoption of the Draft Declaration on the Rights of Indigenous Peoples by the General Assembly He asks whether the theory of international society can accommodate indigenous peoples and considers the political arrangements needed for states to satisfy indigenous claims The book also questions the moral legitimacy of international society and examines notions of collective guilt and responsibility

Modern Constitutions Rogers M. Smith, Richard R. Beeman, 2020-08-14 More than two millennia ago Aristotle is said to have compiled a collection of ancient constitutions that informed his studies of politics For Aristotle constitutions largely distilled and described the varied and distinctive patterns of political life established over time What constitutionalism has come to mean in the modern era on the other hand originates chiefly in the late eighteenth century and primarily with the U S Constitution written in 1787 and made effective in 1789 and the various French constitutions that first appeared in 1791 In the last half century more than 130 nations have adopted new constitutions half

of those within the last twenty years These new constitutions are devoted to many of the same goals found in the U S Constitution the rule of law representative self government and protection of rights But by canvassing constitutional developments at the national and state level in the United States alongside modern constitutions in Eastern and Western Europe Africa and Asia the contributors to Modern Constitutions all leading scholars of constitutionalism show that modern constitutions often seek to protect social rights and to establish representative institutions forms of federalism and courts charged with constitutional review that depart from or go far beyond the seminal U S example Partly because of their innovations however many modern constitutional systems now confront mounting authoritarian pressures that put fundamental commitments to the rule of law in jeopardy The contributions in this volume collectively provide a measure of guidance for the challenges and prospects of modern constitutions in the rapidly changing political world of the twenty first century Contributors Richard R Beeman Valerie Bunce Tom Ginsburg Heinz Klug David S Law Sanford Levinson Jaime Llach Christopher McCrudden Kim Lane Scheppele Rogers M Smith Mila Versteeg Emily Zackin

Federalism and Territorial Cleavages Ugo M. Amoretti, Nancy Gina Bermeo, Professor of Politics Nancy Bermeo, 2004 One of the biggest problems facing developing countries is the integration of regions with different traditions and minority groups into a larger sovereignty This book analyses successes and failures of federalism in advanced industrial countries developing countries and post Communist regimes
