Peterson 1 1 Introduction The Mosaic browser the first to support graphics was introduced in 1993 and at some point during that year the first map was transmitted through the Internet to a web page Little notice was taken of the first web map but the development of Internet cartography since has been nothing but remarkable The new medium of communication changed maps from static entities on paper to dynamic products of interaction Millions of maps are now created by servers every hour and transmitted through the Internet When we need to find a place or find out about a place we turn immediately to these servers through the Internet In a few short years the World Wide Web has transformed the Internet into the primary medium for the dissemination of spatial information in the form of maps

### **Murder and Media in the New Rome** Thomas

Simpson, 2010-11-15 This book explores a sensational crime and trial that took place in Rome in the late 1870s when the bloody killing of a war hero triggered a national spectacle A young southern wife's murder of her impotent soldier husband exploded into the first great media circus in the new nation of Italy The trial of the widow and her acrobat lover shocked the young nation not only with its gruesome details but also because masses of women flocked to the court took sides and heatedly reacted to testimony as a new generation of newspapers exploited the scandal to enchant an untapped readership Largely ignored by historians the Fadda Affair as it was called crucially shaped the young nation's self image but it still resists reduction to historiographical formula even as its raucous messiness presages the postmodern centrality of performance and the displacement of substance by sensation
