NelMom said: "After less than two weeks of concentrated practice using this book, she did the SAT test for the 3rd time. Her math score shot up 150 points from her highest previous score. The improvement in her score pushed her to a level that qualifies for merit scholarships and Honors Colleges. Thus far, our 16.95 investment has translated into 4-year merit scholarship offers from 3 schools equal to a total of over 200,000, and we haven't even heard from the rest of the colleges yet. So I can honestly say that buying this book has been the single best financial investment I have ever made." The book is nothing less than BRILLIANT. PHYSICS BOSS said: "Awesome SAT and PSAT math book. Thanks so much, Mr. Keller. Just found out my son got a 76 out of 80 on the PSAT math section. I ordered for my daughter to boost her SAT math score, but much of it will help for any multiple-choice math test she takes in the future. It has made me feel like even I could do well on the SAT math section." Mradkins said: "It has fantastic score-raising tips that I would have never thought about. It is also very effective in teaching and reviewing quickly with methods that work best on SAT. It raised my score significantly and helped me better understand some math." Rahman said: "Within two days, I've seen TREMENDOUS improvement for myself. I improved from 500 to 640 WITHIN 2 days. REALLY HELPFUL." Sam Rolfe said: "With exposure to only the first half of this book, my daughter caught on to what the SAT math is all about.
