**Compounds and their Spelling** Christina Sanchez-Stockhammer, 2018-05-03 Anyone writing texts in English is constantly faced with the unavoidable question whether to use open spelling drinking fountain hyphenation far off or solid spelling airport for individual compounds While some compounds commonly occur with alternative spellings others show a very clear bias for one form This book tests over 60 hypotheses and explores the patterns underlying the spelling of English compounds from a variety of perspectives Based on a sample of 600 biconstituent compounds with identical spelling in all reference works in which they occur 200 each with open hyphenated and solid spelling this empirical study analyses large amounts of data from corpora and dictionaries and concludes that the spelling of English compounds is not chaotic but actually correlates with a large number of statistically significant variables An easily applicable decision tree is derived from the data and an innovative multi dimensional prototype model is suggested to account for the results **The Complete Aeschylus** Aeschylus, 2011-01-04 Based on the conviction that only translators who write poetry themselves can properly re create the

celebrated and timeless tragedies of Aeschylus Sophocles and Euripides the Greek Tragedy in New Translations series offers new translations that go beyond the literal meaning of the Greek in order to evoke the poetry of the originals Aeschylus *Oresteia* the only ancient tragic trilogy to survive is one of the great foundational texts of Western culture It begins with Agamemnon which describes Agamemnon's return from the Trojan War and his murder at the hands of his wife Clytemnestra continues with her murder by their son Orestes in *Libation Bearers* and concludes with Orestes' acquittal at a court founded by Athena in *Eumenides* The trilogy thus traces the evolution of justice in human society from blood vengeance to the rule of law Aeschylus' contribution to a Greek legend steeped in murder adultery human sacrifice cannibalism and endless intrigue This new translation is faithful to the strangeness of the original Greek and to its enduring human truth expressed in language remarkable for poetic intensity rich metaphorical texture and a verbal density that modulates at times into powerful simplicity The translation's precise but complicated rhythms honor the music of the Greek bringing into unforgettable English the Aeschylean vision of a world fraught with spiritual and political tensions
