for today's music educators. Written by a diverse group of experts the eight chapters address a range of contemporary contexts including digital instrument ensembles digital audio workstations hip hop courses pop vocal performance rock bands studio production and more. Considering both the challenges and the benefits of integrating commercial and popular music into teaching the contributors explore how doing so can enhance student learning. The authors show how a constructivist approach to music pedagogy enables student led real world learning in higher education and consider how diversity equity and inclusion intersect with teaching popular music performance.
