,1899 *The Individual in the Making* Edwin Asbury Kirkpatrick,1911 In this volume it is proposed to discuss the development of individual human minds chiefly from the subjective point of view The educator like the mariner needs a chart by which he may guide the child into the most favoring channels and past the most serious dangers that are found in each stage of development from childhood to maturity The author believes that the descriptions and suggestions herein given lead toward the truth The ideas as expressed are not given as final truth for the guidance of psychologists and educators but as a formulation of facts and principles to be corrected and completed by further scientific investigations and tested by practical educational experience It is hoped that the work is sufficiently concrete and specific to be of interest and value to parents and teachers who have not received much training in psychology It will be of most value however to those who have had a good deal of experience with children Preface
