government subsidies cheaper labour markets and skills shortages have created an uneven international playing field and more encouragement for development and growth is needed The possibility of a games industry tax relief should be kept under review and a comprehensive assessment of the benefits of a games tax relief should be carried out along with an examination of countries whose industries flourish without such support A shortage of adequately qualified graduates to sustain the industry is also a real concern skills like maths and computer science being needed and the brain drain of graduates to countries offering better incentives The creation and retention of intellectual property is seen as a priority issue for the UK video games industry and the Government s review of intellectual property taxation will be monitored The failure of the creative industries Minister to lobby the Treasury directly on games tax relief is both surprising and disappointing and the Committee asks the Government to explain how the industry s voice will be heard properly in future
