Authoritarianism Debates: The Ongoing Formation of the State in Turkey Melehat Kutun,2025-11-05 This methodological theoretical and empirical contribution focuses on how the classical political economic and sociological approaches that have long prevailed in studies on the state and authoritarianism reproduce or update themselves in the particularity of Turkey It considers the strong state tradition thesis and its contemporary versions new developmentalism and competitive authoritarianism to be variants or adaptations of the classical political economic and sociological approaches questioning why these new concepts are needed and what is in their view new since 2011 in the politics of Turkey It problematises the ways these approaches are reproduced in the contexts of varied countries own peculiarities and Turkey s specifically It focuses on how these approaches have been transformed and updated while explaining recent political developments in Turkey and it presents an open Marxist critique and a comprehensive explanation of authoritarianism contextualised amongst the other prominent discussions in Marxist state theory It presents a multi disciplinary approach that builds bridges between state theory methodological concerns and contemporary politics in Turkey focusing on the period since 2010 but with particular consideration of both the continuities and ruptures with the previous period

The

Holocaust and the German Elite Rainer C. Baum,2021-11-21 This book first published in 1981 is a study of the social and political sources of amoral political rule in modern times Only a moral indifference unparalleled in history made the Holocaust possible and by linking the German imperial ambitions to the meaningless suffering and death in the concentration camps the true significance of the Holocaust is revealed in all its horror Understanding this requires an understanding of the social forces that produced a national amorality among Germany s elites The author suggests three contributive causes a marked ambiguity among Germans in their attitude towards social values the development of a cadre characterized by status insecurity and an inability to resolve internal conflict

The New Power Elite Alan Shipman,June

Edmunds,Bryan Turner,2018-04-13 Elites have always ruled wielding inordinate power and wealth taking decisions that shape life for the rest In good times the 1% can hide their privilege or use growing social mobility and economic prosperity as a justification When times get tougher there s a backlash So the first years of the twenty first century a time of financial crashes oligarchy and corruption in the West persistent poverty in the south and rising inequality everywhere have brought elites and establishments under unprecedeted fire Yet those swept to power by this discontent are themselves a part of the elite attacking from within and extending rather than ending its agenda The New Power Elite shows how major political and social change is typically driven by renegade elite fractions who co opt or sideline elites traditional enemies It is the first

book to combine the politics economics sociology and history of elite rule to present a compact comprehensive account of who s at the top and why we let them get there **Why Ethnic Parties Succeed** Kanchan Chandra,2007-02-15 Why do some ethnic parties succeed in attracting the support of their target ethnic group while others fail In a world in which ethnic parties flourish in both established and emerging democracies alike understanding the conditions under which such parties rise and fall is of critical importance to both political scientists and policy makers Drawing on a study of variation in the performance of ethnic parties in India this book builds a theory of ethnic party performance in patronage democracies Chandra shows why individual voters and political entrepreneurs in such democracies condition their strategies not on party ideologies or policy platforms but on a headcount of co ethnics and others across party personnel and among the electorate

The Politics of Women's Rights Christina Wolbrecht,2010-04-24 Here Christina Wolbrecht boldly demonstrates how the Republican and Democratic parties have helped transform and have been transformed by American public debate and policy on women s rights She begins by showing the evolution of the positions of both parties on women s rights over the past five decades In the 1950s and early 1960s Republicans were slightly more favorable than Democrats but by the early 1980s the parties had polarized sharply with Democrats supporting and Republicans opposing such policies as the Equal Rights Amendment and abortion rights Wolbrecht not only traces the development of this shift in the parties relative positions focusing on party platforms the words and actions of presidents and presidential candidates and the behavior of the parties delegations in Congress but also seeks to explain the realignment The author considers the politically charged developments that have contributed to a redefinition and expansion of the women s rights agenda since the 1960s including legal changes the emergence of the modern women s movement and changes in patterns of employment fertility and marriage Wolbrecht explores how party leaders reacted to these developments and adopted positions in ways that would help expand their party s coalition Combined with changes in those coalitions particularly the rise of social conservatism within the GOP and the affiliation of social movement groups with the Democratic party the result was the polarization characterizing the parties stances on women s rights today **Class Formation and Civil Society** Patrick M. Boyle,2018-10-26 First published in 1999 this study of the politics of education in Cameroon the Congo and Kenya presents arresting empirical evidence that urban elites exiting public sector educational systems they have dominated in favour of private school networks of their own creation Seeking to enhance their offspring s chances for survival and even domination in a world of scarce resources and limited opportunities for employment elites see private schools as tools to shape newly emerging civil societies in Africa in their own image From a theoretical perspective the fresh evidence presented here shows that schooling has once again become a major social force influencing the balance of state and society in modern Africa Re examining an older political tradition of class analysis and integrating it into more recent civil society perspectives the author shows that the abandonment of the unreliable education services of dysfunctional African states in favour of private schools has profound

consequences for class articulation in societies dividing once again according to educational opportunities

Whose Welfare? Steven Michael Teles, 1996 Few American social programs have been more unpopular controversial or costly than Aid to Families with Dependent Children AFDC Its budget now in the tens of billions of dollars has become a prominent target for welfare reformers and outraged citizens Indeed if public opinion ruled AFDC would be discarded entirely and replaced with employment Yet it persists Steven Teles's provocative study reveals why and tells us what we should do about it Teles argues that over the last thirty years political debate on AFDC has been dominated by an impasse created by what he calls ideological dissensus an enduring conflict between opposing cultural elites that have largely disregarded public opinion Thus he contends one must examine the origins and persistence of elite conflict in order to fully comprehend AFDC's immunity to the reform it truly needs the

kind that unites the elements of order equality and individualism central to the American creed One of the first studies to analyze AFDC from a New Democrat position Whose Welfare sheds new light on the controversial role of the courts in AFDC the rise of welfare waivers in the mid 1980s the failure of the Clinton welfare plan and the victory of block granting over policy oriented welfare reform Teles however goes beyond mere critical analysis to advocate specific approaches to reform His thoughtful call for compromise built around the centrality of work individual responsibility and opportunity offers a means for dissolving dissensus and genuine hope for changing an outdated and ineffectual welfare system Based on interviews with participants in the AFDC policymaking process as well as an unparalleled synthesis of the voluminous AFDC literature Whose Welfare will appeal to a wide array of welfare scholars policymakers and citizens eager to better understand the tumultuous history of this problematic program and how it might fare in the wake of the fall elections Tribal Elites and Social Transformation Kamal K. Misra,1994 Study of the Khamti Southeast Asian people of Arun chal Pradesh and their role in social transformation **Democracy Heading South** Augustus B. Cochran,2001 For Cochran the sense of deja vu is overwhelming and alarming **BOOK JACKET** The Making of Post-communist Elites in Eastern Europe E. Hanley,1996

Catechism of chemistry William Maugham,1876 Beating Plowshares Into Swords Paul A. C. Koistinen,1996 Koistinen describes how an undeveloped preindustrial economy forced Americans to fight defensive wars of attrition like the Revolution and the War of 1812 By the time of the Mexican War however a gradually maturing economy allowed the United States to use a much more offensive minded strategy to achieve its goals The book concludes with an exhaustive examination of the Civil War a conflict that both anticipated and differed from the total wars of the industrialized era Koistinen demonstrates that the North relied upon its enormous economic might to overwhelm the Confederacy through a strategy of annihilation while the South bungled its own strategy of attrition by failing to mobilize effectively a much less developed economy Buying Respectability Thomas Adam,2009-04 In 19th century Leipzig Toronto New York and Boston a newly emergent group of industrialists and entrepreneurs entered into competition with older established elite groups for social recognition as well as cultural and political leadership The competition was played out on the field of philanthropy with the North American community gathering ideas from Europe about the establishment of cultural and public institutions For example to secure financing for their new museum the founders of the Metropolitan Museum of Art organized its membership and fundraising on the model of German art museums The process of cultural borrowing and intercultural transfer shaped urban landscapes with the building of new libraries museums and social housing projects An important contribution to the relatively new field of transnational history this book establishes philanthropy as a prime example of the conversion of economic resources into social and cultural capital
