**EW Minium**

## Los Angeles 2020:

*Unequal Cities* Richard McGahey, 2023-01-10 Cities are central to prosperity they are hubs of innovation and growth However the economic vitality of wealthy cities is marred by persistent and pervasive inequality and deeply entrenched anti urban policies and politics limit the options to address it Structural racism suburban subsidies regional government fragmentation the hostility of state legislatures and federal policy all contribute to an unequal status quo that underfunds cities while preventing them from pursuing fairer outcomes Economist Richard McGahey explores how cities can foster equitable economic growth despite the obstacles in their way Drawing on economic and historical analysis as well as his extensive experience in government and philanthropy he examines the failures of public policy and conventional economic wisdom that have led to the neglect of American cities and highlights opportunities for reform *Unequal Cities* features detailed case studies of New York Detroit and Los Angeles tracing how their attempts to achieve greater equity foundered because of the fiscal and political constraints imposed on them McGahey identifies key lessons about the political coalitions that can overcome anti urban biases arguing that alliances among unions environmentalists and communities of color can help cities thrive But he warns that cities cannot solve inequality on their own political action at state and federal levels is necessary to achieve systemic change Shedding light on the forces that produced today s dysfunction and disparities *Unequal Cities* provides timely policy prescriptions to promote both growth and equity

*Reclaiming the Road* David L Prytherch, 2025-06-17 Imagining equitable streets for all For the past century our roadways have been engineered as pipes for cars but they offer vast potential as public spaces From New York and Boston to Portland and Los Angeles cities are rethinking their streets going beyond sidewalks and bike lanes to welcome nonmotorists to share the asphalt roadway *Reclaiming the Road* traces the historical evolution of America s streets and explores contemporary movements to retake them from cars temporarily and permanently for diverse forms of mobility and community life To share the street raises important questions of equity in transportation and beyond David L Prytherch proposes a bold intersectional vision of a more just street *Reclaiming the Road* connects cutting edge theory policy analysis and firsthand accounts from those leading the charge in transforming our streets to advocate for changing how we think about and design roads Prytherch features case studies of nine major cities in the United States to show how experiments in reclaiming streets accelerated during the Covid 19 pandemic to become lasting changes Through in depth interviews he shares stories of how planners transportation advocates and community leaders have implemented innovative programs for slowing neighborhood streets opening roads for walking and biking and reconstructing roadways with public parklets and street plazas as social spaces for curbside conversation Examining movements to transform streets through the lenses of equity and justice *Reclaiming the Road* tackles the conceptual challenge of defining mobility justice and the practicalities of planning a more just public street offering a compelling vision for the future of America s public spaces Retail e book files for this title are screen reader friendly with
