Lost Futures Lisa Tuttle, 2013-04-04 Shortlisted for the Arthur C Clarke Award and the James Tiptree Jr Award this literary science fiction novel by award winning author Lisa Tuttle is a brilliant exploration of the relationship between quantum mechanics human choice and alternate worlds The Oxford Times Sometimes those roads not taken can come back and haunt you Clare's unhappy life hasn't gone the way she expected At the age of thirty three she's still an accountant still unmarried and ridden with guilt over the tragic death of her brother Her obsession with roads not taken drives her into a nervous breakdown until she comes to realise that she can leave her unsatisfactory real life behind and enter alternate realities where things worked out better But when she explores these other existences she discovers they are far from the perfect lives she was imagining and wherever she turns another Clare usurps her own existence until she is forced into the ultimate confrontation with madness and truth

Desistance, Resistance, and Normalcy Tea Fredriksson, Robin Gålnander, 2025-03-26 This book provides a nuanced critical analysis of desistance from crime particularly through the lens of women's experiences It develops desistance theory by interrogating the concept of normalcy highlighting how normative societal expectations cause harms on desistance journeys Through this lens the book uncovers tensions between desistance as a journey towards societal re integration and the resistance desisters experience when encountering state institutions and social norms Being no longer part of the old life and not yet part of the new desisters face both familiar and unfamiliar harms A key conceptual contribution is the book's critique of normalcy as both an aspirational and oppressive goal The work illustrates how the pursuit of mainstream inclusion can expose desisters to both new and continuous harms These include surveillance and stigma social and literal death gendered violence and economic precarity By engaging with feminist and temporal criminological theories the book sheds light on how desisters' experiences reveal the dark side of normalcy calling into question whether its pursuit is wholly desirable With its focus on the intersections of gender stigma and social control this work advances academic debates on desistance proposing a rethinking of how criminal justice systems and support frameworks engage with those transitioning out of criminalized lifestyles It will appeal to students and scholars of criminology desistance gender studies recovery from addiction and to practitioners and policy makers in these fields
