Mongol Jewelry Martha Boyer, 1995      **Among Herders of Inner Mongolia** Christel Braae, 2017-10-20 This is a study of a unique collection of Inner Mongolian artifacts at the National Museum of Denmark They are described analyzed and presented in a catalogue of more than 800 items documenting the daily life of pastoral society in and around

the tent in the herding of the animals in caravan trade and in hunting crafts sports and games and in ritual life Information about the objects was obtained during two expeditions to Inner Mongolia in the 1930s led by the Danish author Henning Haslund Christensen who had many years experience of travel and expedition life in Mongolia This is also a detailed account of the expeditions of the routes means and measures as well as the worries and hopes of the participants of their struggles with scientific aspirations and of the conditions for collecting against the backdrop of the Chinese civil war and the Japanese occupation The First and Second Danish Expeditions to Central Asia took place in 1936 1937 and 1938 1939 respectively These expeditions were the sole foreign parties with access to the area at the time and therefore their members were among the few observers of Inner Mongolian pastoral society at a time and place for which information was and still is scant and fragmented Hence the material objects and data obtained are of great scientific importance in the documentation of the life and material culture of Inner Mongolian herders in the 1930s the main subject of the present book
